

Step Up Security can also supply trained SIA Approved Guards and Banksman who can operate our systems and induct all staff or visitors to site or premises.

STEP UP PODS

Portable Office Designed Security Systems

Affordable Weekly Hire

Static Guards

Fully trained and SIA licensed, our Static Guards are equipped to tailor their expertise to a whole host of facilities CCTV trained to monitor and access systems.

Guards can assist with Induction, take relevant details and record finger prints linked to a photo, fob or card access system. They also computer literate and can carry out most administrative duties.

Mobile Patrols

Step Up Security Mobile Patrols are an effective deterrent to protect premises, and work well at construction sites, factories schools and car parks.

A cost-effective alternative to static guarding, Step Up's modern fleet of security patrol vehicles provide high visibility and can respond fast to your protective and security needs.

Dog Handling

For contracts that require more than one guard to cover large areas; a dog and handler can save you at least 50% the cost of a second guard. A real deterrent.

They have consistently proved to be the quickest and most thorough in searching warehouses, offices or large areas in minutes reducing the need for excessive manpower.

Step Up Security is accredited with ISO 9001 by ISOQAR, which means our Control Room conforms to BS7499, and staff are vetted and trained to conform with BS7858. We are one of the United Kingdom's most successful security companies with more than 200 clients across North West England.

Cost-effective, portable solutions for your site security and access control needs.
