Catalogue of Services

Digital Legal Ltd - Your IT Consultancy and Software Development Partner

With over 35 years of expertise in software development and the legal market, Digital Legal Ltd is your trusted partner for comprehensive IT solutions. We specialize in serving law firms, providing a wide range of services to help you excel in today's dynamic digital landscape. Our commitment to following correct processes and procedures ensures that your projects are delivered with precision and excellence. We understand the unique challenges and regulatory demands faced by software suppliers and law firms, and our tailored services are designed to enhance operations and ensure compliance.

Our Comprehensive Services Include:

Integration with 3rd Party Software (Internal and External)

- Seamlessly connect your production systems with third-party tools and databases.
- Ensure smooth data flow across various platforms.

Collaborative R&D and Innovation

- Explore emerging technologies such as AI and Machine Learning to enhance business processes.
- Collaborate with us on research and development projects to drive innovation in the industry.

Strategic Consulting and Innovation

- Benefit from our extensive experience and fresh perspectives on legal market challenges.
- Stay at the forefront of innovation with the latest technology insights.

Custom Software Solutions

- Bespoke software development to meet the specific requirements of your legal processes.
- Expert advisory services to align your IT solutions with industry standards and compliance regulations.
- Ensuring security, best practices, and third-party licensing considerations are seamlessly factored in from the outset.

Case Management Solutions and Support

- Experts in Case management - tailoring, deployment and migration.

Software Development and Compliance Guidance

- Design intuitive user experiences (UX) for your software, ensuring a seamless user interaction.
- Implement architectural best practices to meet stringent industry standards.
- Comprehensive documentation and wikis for transparency and regulatory compliance.
- Agile development practices for adaptability and efficiency.
- Scalability planning to accommodate future growth.
- Expertise in Microsoft PowerApps development for legal applications.

Process Automation

- Streamline and automate legal processes for increased efficiency and precision.
- Reduce manual errors and enhance overall productivity.

Advanced Reporting and Data Analysis

- Harness the power of data analytics to derive actionable insights.
- Implement robust business intelligence solutions and optimize data storage practices.
- Create customized reports for effective decision-making.

Business Analysis

- Facilitate workshops and brainstorming sessions to uncover industry-specific insights.
- Comprehensive business process mapping and system design tailored to law firms.

Ongoing Support and Training:

- Expert support for Azure DevOps, ensuring smooth project management.
- Leverage our Power BI expertise for data-driven decision-making.
- Excel training to enhance data analysis and reporting capabilities.

At Digital Legal Ltd, we are committed to delivering excellence and compliance in every project. Contact us today to discover how our specialized team can elevate your operations with innovative IT solutions and advisory services.
