In **April 2020**, during the first national lockdown, I was diagnosed with early-stage but aggressive breast cancer. Like many, my world shifted overnight. Treatment followed; surgery, chemotherapy and radiotherapy; all delivered with extraordinary care by the **Breast Care Unit at Macclesfield Hospital**.

Throughout that journey, I experienced first-hand how vital early detection, modern equipment and dedicated clinical teams are. I was fortunate. My cancer was found early. **That equipment, and those people, made the difference.**

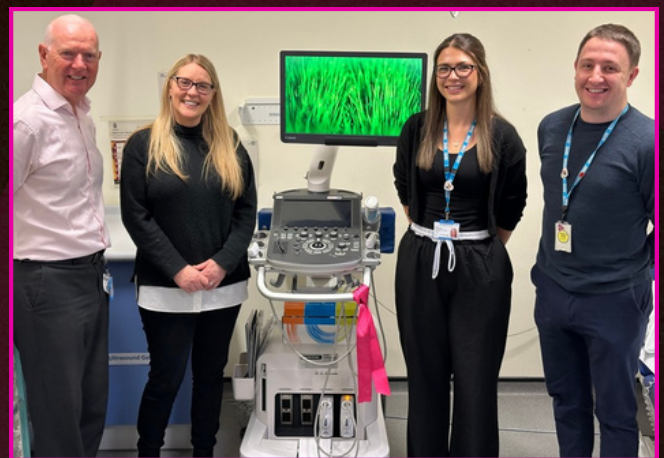

When my treatment ended, I made a decision. I wanted to give something tangible back to the unit that had quite simply **saved my life**.

In 2023 and 2024, Splash of Pink Breast Cancer Charity Balls were created; bringing together local businesses, medical professionals and community supporters for elegant, purpose-driven fundraising evenings. Together, we raised nearly **£60,000**.

Those funds purchased a state-of-the-art **ultrasound machine** for Macclesfield Hospital's Breast Care Unit. The machine is now in daily use, supporting early diagnosis and improved patient care within our local community.

In February 2027, we aim to raise a further £60,000 to fund a **full-size specimen cabinet** for the theatre suite; improving patient experience, reducing time under anaesthetic and increasing surgical efficiency.

**Splash of Pink** is no longer just an event. It is a growing community movement, uniting business and healthcare to deliver lasting, measurable impact.
