2 Bird System

1. **Turn On Station:** Press ANY button on the handheld to "wake up" the system. The screen will display "Insert Tag". Insert your card and you are ready to begin

2. **Throw Birds Manually:** Press a Trap button to fire a bird from that station (A, B, or Doubles).

- **Doubles:** Press Doubles to fire a True Pair (thrown simultaneously).

- **Solo Shooter: Simple Delay:** Setting a delay between the time a trap button is pressed and the time the trap(s) fire allows solo shooters to go out alone without a trapper. Set the desired delay time to allow you to press a trap button and get ready before the target is launched. The delay must be set before a Target TAG card is inserted.
    - **Do NOT insert your bird card yet**
    - The screen should be blank and the system in standby
    - Press any button to turn on station
    - <u>Set the delay</u>: Press *Trap 2* to enter the Delay Settings
        - Press Trap 2 to add 1 second delay each time it is pressed
        - Press Trap 1 to reduce delay by 1 second each time it is pressed
    - Once complete, wait for the display to self-exit the delay settings
    - <u>Insert your Bird Card</u> and when ready press your desire Trap button (A, B or Doubles)
        - The delay countdown will begin immediately
        - After the bird is thrown, you may continue to select targets and the delay will remain

- **Solo Shooter: Delayed Doubles** *(simulates a report pair)***:**
    - **Do NOT insert your bird card yet**
    - The screen should be blank and the system in standby
    - Press any button to turn on station
    - <u>Set the first bird delay</u>: Press *Trap 2* to enter the Delay Settings
        - Press Trap 2 to add 1 second delay each time it is pressed
        - Press Trap 1 to reduce delay by 1 second each time it is pressed
    - <u>Set the second bird delay</u>: Press the *Doubles* button to enter a second delay timer.
        - Press Trap 2 to add 1 second delay each time it is pressed
        - Press Trap 1 to reduce delay by 1 second each time it is pressed
    - Once complete, wait for the display to self-exit the delay settings
    - <u>Insert your Bird Card</u> and when ready press your desire Trap button (A or B)
        - The delay countdown will begin immediately
        - After the bird is thrown, the second timer will count down and then throw the alternate target.

Good luck, have fun!
