Precautionary Statement

Prevention: Observe good industrial hygiene practices.

Product may stain cloth and equipment.

Response: Wash hands after handling.

Storage: Store away from incompatible materials.

Storage of bulk products is best suited for original manufacturing containers.

Harmful if swallowed. Avoid skin contact. Causes eye and skin irritations.

In case of contact, wash the affected areas with water immediately and continue washing for fifteen minutes. Seek medical attention if irritation persists.

Disposal: Dispose of contents in accordance with local regulations.

Humic Acid Liquid Fertilizer

Product information:

Contains humic acids extracted from leonardite.

HUMISOL can be used as a soil or foliar application.

It may enhance micronutrient uptake by plants.

Directions and General Recommendations

SOIL APPLICATION

Apply 1 to 2 quarts of HUMISOL in 30 to 40 gallons of water or liquid fertilizer per acre.

FOLIAR APPLICATION

Apply 0.5 to 1 quart of HUMISOL with foliar fertilizer in at least 8 gallons of water per acre.

This product is a weak alkaline salt and may be neutralized with a buffer. High rates of this product in combination with high rates of other materials may cause burn. When in doubt test this product on a small scale.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

Always jar test new combinations for compatibility prior to field mixing.
