

# ACTON MOLBOR

## Guaranteed Analysis:

Boron (B) ..... 3.5%  
 Molybdenum (Mo) ..... 0.5%

Derived from: Boron ethanolamine and sodium molybdate.

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfc.org/metals.html>

ONLY A LICENSED AND EXPERIENCED APPLICATOR SHOULD APPLY THIS PRODUCT.

**Limited Warranty:** Manufacturer warrants that this product conforms to the guaranteed analysis for the growing season in which purchased. Manufacturer MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTIES. IN NO SUCH CASE SHALL MANUFACTURER OR THE SELLER BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, EXEMPLARY OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ANY AND ALL DAMAGES CLAIMED SHALL BE LIMITED TO THE AMOUNT PAID FOR THE PRODUCT.

Manufacturer offers this product and the Buyer/User accepts it subject to the foregoing Conditions of Sale and Limited Warranty.

### Precautionary Statement

Prevention: Observe good industrial hygiene practices.

Product may stain cloth and equipment.

Response: Wash hands after handling.

Storage: Store away from incompatible materials.

Storage of bulk products is best suited for original manufacturing containers.

Harmful if swallowed. Avoid skin contact. Causes eye and skin irritations.

In case of contact, wash the affected areas with water immediately and continue washing for fifteen minutes. Seek medical attention if irritation persists.

Disposal: Dispose of contents in accordance with local regulations.

## Boron & Molybdenum Liquid Fertilizer

### Product information:

A product designed for application to all field, row, vegetable, fruit, tree and vine crops, and ornamentals for the prevention and correction of boron and molybdenum deficiencies when used as part of a balanced fertility program.

### Directions and General Recommendations

Field, Row, Vegetable, Fruit, Tree and Vine Crops: Apply 1-3 pints per acre per application throughout the growing season. At least 3 applications are recommended.

Ornamental Crops: Apply 1-3 pints per 100 gallons water. Cover foliage thoroughly to point of runoff.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

ATTENTION: This product contains boron; use on any crops other than those recommended may result in serious injury to the crops. The application of fertilizing material containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

Always jar test new combinations for compatibility prior to field mixing.
