Precautionary Statement

Prevention: Observe good industrial hygiene practices.

Product may stain cloth and equipment. Response: Wash hands after handling.

Storage: Store away from incompatible materials.

Storage of bulk products is best suited for original manufacturing containers.

Harmful if swallowed. Avoid skin contact. Causes eye and skin irritations.

In case of contact, wash the affected areas with water immediately and continue washing for fifteen minutes. Seek medical attention if irritation persists.

Disposal: Dispose of contents in accordance with local regulations.

Keep tightly closed in the container since the powder attracts moisture.

SOLUBLE SEAWEED EXTRACT POWDER FOR SOIL AND FOLIAR APPLICATION

General Information:

Promotes plant growth and provides potassium that is readily available for plant use. Suitable for all plants grown in the greenhouse, landscape, garden or commercial fields.

Directions and General Recommendations

GENERAL USE: Apply 2 lbs. per acre per growing season. Apply the first application when there is sufficient foliage for absorption, the second application before bloom, the third application at bloom.

ROOT INJECTIONS: One (1) lb. to 100 gallons. Insert into soil to a depth of 10-12 inches and spaced three feet apart (around the drip line).

SEED TREATMENT BEFORE PLANTING: Wet thoroughly in a solution of 1:100. Allow seeds to dry before planting.

TRANSPLANTING: Apply 1/6 lb. (2.7 oz.) to 50 gallons. The same plant can also be dipped in solution of 1:100 before planting.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

Always jar test new combinations for compatibility prior to field mixing.
