## **Peaceful Protest to Support Those Who Protect, Serve and Defend**

*Non-Profit Foundation to Hold Peaceful Protest to Honor Law Enforcement Officers*

Washington, D.C., June 9, 2020—Join the MAC Foundation in supporting the We Back Blue March to love, honor, encourage and support our law enforcement officers during this pivotal time in our nation's history.

Since March, our strength as individuals and as a nation has been tested, tried and found seriously wanting; uncertainty reigns as Americans worry not only for their physical health and safety but also for their personal, economic, and psychological well-being during the unprecedented government reaction to the Covid-19 virus.

At a moment when the weight of concern and fear appeared to be lifting, the lethal use of force that can never be justified or rectified rocked our nation and the world to its deepest core.

As Americans who firmly believe that every life is valuable and precious, we stand against injustice in all forms and seek to unite our community in solidarity for the right of the individual to life and liberty.

Our law enforcement officers are on the front lines of this pandemic, the protests and riots, the crime and illicit-drug wars, as well as handling the pressure of the economic turmoil and instability affecting domestic relationships. During this turbulent season, our law enforcement officers desperately require our support, encouragement and gratitude for their tireless, fearless and never-ending work to protect and defend their communities.

Melissa Robey, MAC Founder and event organizer said, "We want law enforcement officers to know that communities and Americans are still standing with them and behind them as they have so many times stood by us."

Events speakers and location to be announced.
