- Engine: 7.5 HP GB225, 4-stroke
- Fuel: Unleaded petrol | Tank: 4.2 L
- Weight: ~65 kg
- Best For: Buffalo, Couch, Zoysia, Kikuyu lawns

BEFORE YOU START

Safety Gear

- Safety Boots, Eye Protection, and Hearing Protection

Pre-Use Checks

1. Read the User Guide
2. Ensure the fuel tank is filled with unleaded petrol (provided)
3. Inspect for loose parts or damage
4. Clear or mark any obstacles such as stones, toys, or irrigation equipment

WARNINGS / DO NOT

- ⊘ Operate on wet or slippery lawns
- ⊘ Use on slopes exceeding a 15-degree incline
- ⊘ Leave the engine running unattended
- ⊘ Refuel while the engine is running or hot
- ⊘ Operate without using safety gear

PRO TIPS

- Pass Direction: Scarify in straight lines, overlapping slightly. If required, go over the area twice at different angles.
- Lawn Prep: Mow the lawn short (around 20mm) before scarifying for better results.

HOW TO USE

Starting the Engine

1. Open the fuel valve, set choke to 'ON' (if cold)
2. Set throttle to $\frac{3}{4}$ or full and ensure the kill switch is on
3. Pull starter cord firmly until the engine starts
4. Gradually move choke to run once engine is running smoothly

Adjusting Depth

1. Start shallow and increase depth as needed based on thatch level

Operating the Scarifier

1. Squeeze the blade handle to engage – this will activate and begin driving the scarifier
2. Engage blades only on turf, avoid hard ground
3. Walk at a steady pace and avoid turning with blades engaged

AFTER USE

Cleaning

- Let engine cool before brushing off debris
- Avoid using water to prevent rust

Maintenance

- Check for loose parts and top up fuel if required

Storage and Transport

- Store dry, indoors, away from direct sunlight
- Ensure blades are raised off the ground
- Secure during transport to prevent movement
