# Robin's Home

## Our Mission

To provide a full continuum of care to homeless, unstably housed and low income women veterans and their children.

Robin's Home, a supportive housing program for women veterans and their children. Robin's Home is named after a women veteran who served in the Army and was deployed in support of Desert Storm. After discharge, Robin had been receiving treatment for sexual trauma and Post-Traumatic Stress Disorder when she also required surgery for a medical condition. Unfortunately, due to complications from the surgery, Robin passed away January 27, 2017. In her honor, Robin's Home provides supportive housing to women veterans and their children in need.

Currently in Butler County, no agency provides supportive housing to homeless women veterans and their children. Sadly, there is a growing need for women veterans who need housing stabilization and supportive services. Women Veterans are the fastest growing segment of the military and homeless population. Women Veterans are twice as likely to experience homelessness than non women veterans.
