2024-2025**

HOMELESS VETERANS OUTREACH

Many veterans, especially those who served in combat zones, leave the military with significant physical and emotional wounds that make transitioning to civilian life difficult. Unfortunately, one of the largest groups of America's homeless population are veterans. There are too many of our nation's heroes living on our streets that have special needs and require a helping hand.

The VFW supports homeless veterans in many ways including donations to homeless shelters, support of regional "stand downs," donating clothing and personal hygiene items, fighting for more government resources to reduce the homeless population, and put veterans back to work.

Posts and individuals can send donations to the Department's Homeless Veterans fund in any amount which will be shared with veterans' and shelters.

***See Homeless Veterans Report Form on the next page.
The reports are due monthly.***
