Veterans-to-Veterans (V2V)

- Providing the opportunity for a veteran patient or their family member to receive a visit from a veteran employee of PSH/PSCOM
- Goal of this initiative is to provide comradery to patients with military service backgrounds. This will ultimately improve care and create an avenue of communication between our employee veteran population and veterans who have been admitted to the hospital and their families
- This project will initially be implemented at Penn State Health Milton S. Hershey Medical Center in Hershey, PA
