Walmart Donates \$1,000 for new Mammography Equipment

Yorkton – On Friday August 26 Walmart store manager Dave Pretty presented Ross Fisher, Executive Director of The Health Foundation, with a cheque for \$1,000. The money will be used to assist the purchase of the new digital mammography equipment The Health foundation is raising funds for.

“We were very pleased that Walmart decided to make a donation and help our fundraising campaign for this new equipment,” said Ross Fisher. “This equipment will be an upgrade to the equipment currently in the Yorkton Regional hospital and will provide for earlier and more accurate diagnosis of breast cancer. We hope to complete our fundraising campaign and order the equipment later this fall. “
