College Sports and Institutional Values in Competition

Leadership Challenges

Jennifer Lee Hoffman

College Sports and Institutional Values in Competition interrogates the relationship between athletics and higher education, exploring how college athletics departments reflect many characteristics of their institutions and are also susceptible to the same challenges in delivering on their mission. Chapters cover the historical contexts and background of campus athletics, issues and institutional tensions over market pressures, the spectacle of college athletics and how this spectacle influences athlete experiences, and the ways in which leaders are navigating these issues..
