

## Hold On (Capo up 2 frets)

Well I know sometimes it's hard, you feel you're all alone

The walls are closing in, the pressure takes its toll

When the light within your eyes seems to grow so dim

And sometimes it's so hard to start over again

### (Chorus)

Hold on, hold on, hold on, just hold on (x4 at the end) Speak: (God loves you!)

Well I know you need a friend on whom you can rely

Someone you can trust to give you some advice

When the good times turn to bad when your happy turns to sad

And you don't know where to turn when your bridges start to burn **(chorus)**

If you tell me ooh I'm dying

If you tell me, well I've got a prayer

Ooh and if you tell me it's not worth trying

If you tell me, I'll say hold on **(Chorus) Add: so**
