Fax: 1 (833) 558-5635

Phone: 1 (833) 558 0801

Referral for Chronic Pain Assessment

We will contact your patient directly as well as acknowledging receipt of your referral.

Please send all information you feel is relevant, such as:

- your own findings
- imaging
- relevant labs
- diagnostic testing
- consultations from specialists

For you and your patients' information, it is a standard part of our assessment to perform urine drug immunoassays at the first visit. We have an intake package that we ask patients to complete prior to our booking them in. If the patient does not return our calls or does not complete the intake package, the referral will be returned to you. Medication suggestions will be provided, but not prescribed.
