

THE WEDDING PLACE

Full Planning, Vendor Management & On the Day Co-ordination

Our Mission

As your planner, our role in your wedding is to present all the visual aspects, by pulling together your personal tastes with elegant style and design skills.

Our approach to wedding & events is to design spaces that excite and inspire you and your guests.

About Us

Meet the Face Behind the Company

Hi, I'm Jasmine

I started off my Hospitality career in New Zealand, working in hotel bars until I was eventually promoted to a Wedding Supervisor role. After my 5 year stay, I then returned to W.A. and found myself running a beautiful Golf Resort in Bunbury for 8 years managing their restaurant, bar, weddings and events.

After starting my family, I relocated to the Perth metro area managing The Coogee Beach Surf Life Saving Club where I stayed for 3 years. This is also where I met the beautiful Mariana who has taken TWP to amazing heights and we created a lovely friendship over the years.

Once my daughter Maddy started school, it seemed like the perfect time to finally start my very own side hustle, that's when JPS Grazing was born which has a focus on delicious grazes for all types of occasions.

I have also worked alongside some of Perth's amazing planners as their coordinator for weddings.

" I love planning weddings as you can see from start to finish all the hard work you have done with the couples, especially "the first dance", I'll be the one in the background crying every time"

VENDOR MANAGEMENT

Vendor management is the backbone of successful event planning. Without it, even the most meticulously crafted plans can fall apart. The vendors you choose provide the services and products that bring your vision to life. From the caterer who tantalizes taste buds to the DJ who keeps the dance floor alive, every vendor plays a pivotal role.

Effective vendor management ensures that:

- Consistency and Quality: High standards are maintained across all components of the event.
- Budget Adherence: Vendors deliver within the set financial limits, avoiding unexpected costs.
- Time Management: Services are delivered on schedule, ensuring the event runs smoothly.

Understanding the importance of vendor management helps prioritize it during the planning process, ensuring all chosen vendors align with your event's goals and expectations.
