## CENTRE FOR NEUROLOGICAL PHYSIOTHERAPY & REHABILITATION

A PATIENT CARE GUIDE

[www.movhabilityphysiotherapy.com](http://www.movhabilityphysiotherapy.com)

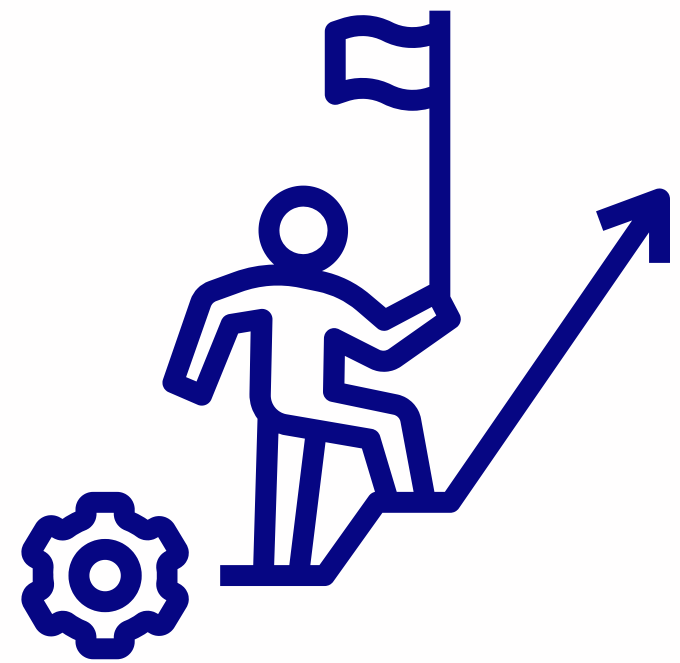

## Vision

Closing the Rehabilitation Gap, Reducing Healthcare Costs, Enhancing Quality of Life.

## Mission

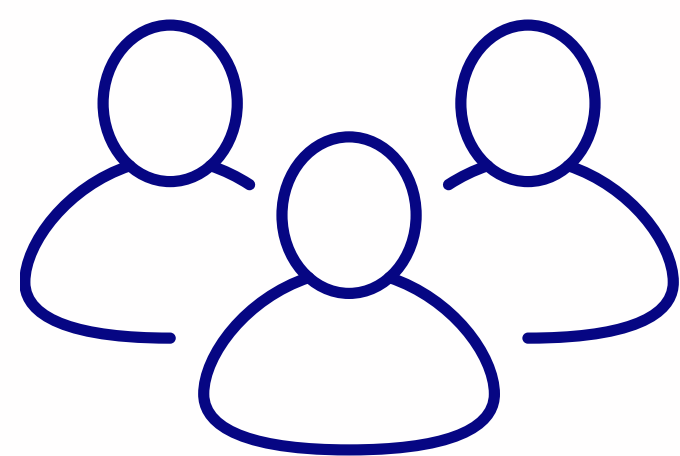

To provide cost-effective physiotherapy and rehabilitation services without compromising quality. We educate society on the benefits of rehabilitation and advocate for the physiotherapy profession. Our focus is on comprehensive patient care through non-pharmacological and non-surgical methods, making the world a better place for all.

## About Us

Movhably Physiotherapy LLP is a registered professional healthcare service firm that provides specialized neurological rehabilitation. Our expert team offers personalized exercise programs tailored to individuals with neurological conditions such as stroke and Parkinson's disease.

At Movhably, we pride ourselves on delivering comprehensive rehab services, effective pain management, and innovative video-guided exercises. These videos not only help patients perform their exercises accurately at home but also allow us to monitor their progress closely, ensuring each patient receives the most effective care.

## ABOUT THE FOUNDERS

**Charles Finney**, founder of Movhably Physiotherapy LLP, is a Neuro Physiotherapist with over 15 years of experience. He holds a Master of Physiotherapy (Advanced Physiotherapy in Neurology Branch). Charles has worked in Hospitals, Clinics, Home care, Fitness centers and Academic institutions.

**Shanmugapriya**, co-founder of Movhably Physiotherapy LLP, is a women's health expert with a B.P.T from The Tamil Nadu Dr. MGR Medical University, Guindy.

In April 2024, **Charles** and **Shanmugapriya** established Movhably Physiotherapy LLP to address the severe shortage of quality rehabilitation services in our country. Many people do not receive timely rehabilitation due to a lack of awareness and the high cost of care, resulting in impaired functional movements and a diminished quality of life. The center offers specialized, patient-centered care, including:

- Neuro rehab
- Orthopedic rehab
- Chronic pain rehab
- Cardio and Lung rehab

The center is known for its innovative rehabilitation approaches, such as:

- Video-guided exercises
- Personalized programs

Their dedication and commitment drive the success of Movhably Physiotherapy LLP.
