

We are a manufacturer of lighting products established in 2008. The warehouse is located in North Miami Beach, mainly serving the eastern coastal cities of the United States. We are committed to the design and manufacture of private custom lighting products and hotel engineering projects. Here you can directly contact with manufacturers and professional lighting designers, and integrate architectural design, interior decoration design and lighting design into one business model! Let end customers get the most satisfactory products and services! At the same time, we also have regular product wholesale services, and are committed to becoming the behind-the-scenes service provider of retail enterprises! Thank you for your support and trust!
