CAPTURING TRANSFORMATION

BREATHING NEW LIFE INTO A SWISS-INSPIRED CLASSIC

At NJ Built, we take pride in breathing new life into homes already full of memories — allowing them to continue their story into the next chapter.

We were given the opportunity to revitalise 1 Helvetia Avenue, a home with a clear Swiss influence. Inspired by the principle that less is more, we embraced a palette of neutral tones and refined finishes, allowing the home's natural character to speak for itself. In many cases, it's not about starting over — it's about working with what you have and making it better.
