Basic Information About AKC Fast CAT®

- 1) Fast CAT® – which stands for Coursing Ability Test – is a timed 100-yard dash where dogs run one at a time, chasing a lure. It is meant to be a fun and healthy activity of interest to any dog owner.

How are Fast CAT® Points and Titles Awarded?

- 1) The dog's time to complete the 100-yard dash is converted into miles per hour (MPH).
- 2) A handicap system is applied to a dog's MPH to determine the number of points earned. The handicap system is based on the height of the dog at its withers. If a handicap is not indicated on the entry or corrected before results are reported, a handicap of 1.0 will be used.
 - a) 18 inches or greater = handicap of 1.0
 - b) 12 inches to less than 18 inches = handicap of 1.5
 - c) Below 12 inches = handicap of 2.0
- 3) Points = MPH multiplied by the dog's handicap
- 4) Fast CAT® titles are suffix titles earned at designated milestones.
 - BCAT = 150 points
 - DCAT = 500 points
 - FCAT = 1,000 points
 - FCAT2 = 1,500 points
 - FCAT# = every additional 500 points
- 5) The top 20 fastest dogs by breed are published on the AKC website.

Course and Equipment

- 1) Safety: Safety is of utmost importance. It is the responsibility of the event committee to ensure the safety of the course, equipment and conduct of those involved with the event. It is recommended that the event committee run a test dog prior to the start of the event to ensure that the equipment functions properly and all personnel understand their jobs.
- 2) The Course: The course will be fenced in and run on a level grass surface with enough room for a safe run-out area of at least 50 yards. It is recommended that an owner or someone familiar with the dog be at the finish to catch the dog once the run is completed. The Club will attempt to provide assistance at the end of the course to help collect the dogs if the owner requests it.

3) Timing Devices: The Club will use electronic timers. The time to complete the 100-yard dash is recorded to the nearest 1/100th of a second. The time starts when any part of the dog breaks the electronic beam at the start line. The time stops when any part of the dog crosses the finish line. Stop watches will be used as a backup if the electronic timers don't function properly.

4) Lure Equipment: The Club uses a continuous loop system.

5) Lure: A white plastic bag. If available and upon prior request to the Huntmaster, a squawker may be attached to the lure.

6) The Huntmaster has control of the course. The Huntmaster is in charge of all dogs and handlers on the field, shall ensure handlers understand safe release and retrieval procedures, shall ensure the lure is properly positioned, shall ensure the lure operator, timers and starting line signal person are ready, shall signal the lure operator to start the lure and shall give the verbal signal "tallyho" to release the dog.

General

1. All entries must be one year of age or older on the day of the event or trial.
2. Dogs that do not present by the end of the event will be scratched.
3. Each entry will be examined at inspection. Inspection shall take place prior to any form of wrapping being applied to the dog. In the opinion of the inspection committee, any entry found to be lame, unfit to compete or a female in season shall not be allowed to enter and entry fees shall be refunded.
4. Dogs must be inspected before each run and will not be allowed to line up for the start until inspection is passed.
5. Run order will be based on order set by the field committee. We will separate the running of multiple dogs handled by a single handler. If a dog is late for their run time they will run at the end of the running order.
6. Dogs may wear any collar except a choker collar, a collar with prongs or an electronic training collar. The collar should be snug to minimize the chances of getting hung up on something during the run. Owners should be aware that there is a chance that tags hanging from the collar could become entangled on something during the run. Owners may use clips or rubber bands to hold the dog's hair. The owner assumes responsibility for the safety of the dog with regard to the dog's collar and paraphernalia on the dog.

7. Continuous Loop system will be used. Lure is a white plastic bag. If available, squawkers will only be used upon prior request to the Huntmaster. Exhibitors may bring their own squawkers but must be approved by the Huntmaster and Lure Operator
8. The field committee reserves the right to bar known aggressive dogs from the event site.
9. There will be a \$5 fine assessed for any loose dog not taking part in the course in progress, or for anybody caught not picking up after their dog or leaving garbage on the field.
10. No one will be allowed on the field without the express permission of the Event Chairperson, except the appointed field committee.
11. Anybody exhibiting unsportsmanlike behavior will be excused from the field and may be subject to further disciplinary action.
12. Control of dogs will be strictly enforced. Dogs must always remain on leash, except when running.
13. Clean up and carry out all trash. Please pick up after your dog and put in receptacles provided at site.
