PRIZES

Qualifying Scores - Ribbons are awarded to each dog receiving a qualifying score

New Title – Rosettes awarded to each dog receiving a new title. Title awards are self-reported. Please keep track of your points.

If you anticipate receiving a new title, please indicate which title you anticipate you may receive on your entry form (for schedule, see "Titles" below)

Basic Information about Fast Coursing Ability Tests (FAST CAT)

Fast CAT is a timed straight 100-yard dash for dogs. It is meant to be a fun and healthy activity of interest to any dog owner. Dogs are run singularly.

Fast CAT Points and Titles

The dog's time to complete the course is measured and converted to miles per hour. [mph]. A handicap is applied to the dog's mph to determine the number of points awarded. The handicap is based upon the dog's height at the withers.

Handicaps and Points Toward Titles

- 18" or greater = no handicap. The points equal the mph of the run
- 12" to less than 18" = handicap of 1.5. The points equal the mph multiplied by 1.5
- Under 12" = handicap of 2. The points equal the mph multiplied by 2.

Titles

Titles are suffix titles earned at designated milestones:

The BCAT Title - 150 points.

The DCAT Title - 500 points.

The FCAT* Title - 1000 points.

*A FCAT number e.g. FCAT1 is awarded for each additional 500 points.

Note: The speed of the top twenty fastest dogs is published on the AKC website (by breed) shortly after the event results are submitted to AKC.

SCHEDULE (Quick Check)

1. A handlers' meeting will be held **30** minutes prior to run start time of each event.
2. All dogs will be inspected beginning at **7:30am** for soundness and measured prior to running on that event date. All bitches will be checked for being in season prior to each event.
3. Day-of-Event entries are welcome. Each entry is \$25 and accepted at Check-In / Inspection as time allows up **until 11am for AM Events and 3pm for PM events**. "Day of" entries will be added to the end of the running order list.
4. AM and PM run start times are **8:30am** and **1:00 pm**.

Field Hours: 7am to the conclusion of both events scheduled for the day of the tests.

Check in / inspection: 7:30am and throughout the day. Dogs must be checked in and inspected for soundness and for bitches in season prior to running in **each event**. For dogs running in both events on the same day, they must be inspected prior to **each run**. In addition, the dog's handicap must be verified at the time of inspection. A wicket will be available. The Field Committee reserves the right to wicket any entrant for size on the date of the event and that size will determine the handicap for the events on that date.

Handlers Meeting: 8:00am with refresher at **12:30pm** after lunch.

Lunch: A 60 minute lunch break (12:00pm to 1:00pm) will be scheduled at the discretion of the Event Committee. The *Chameleon Mobile Cuisine* food truck will be in the event area serving from 10:00am until 2:00 pm (or until demand drops off) on both days.

Event Run Schedule:

We will be starting at **8:30am** each day. In the event of inclement weather or other conditions (or for timely completion of the event), the Event Committee may elect to start the events earlier than posted. In any case, all entrants present during the posted times will be allowed to run. **Afternoon events will start at 1:00 pm.**

Event workers will be scheduled to run first (if desired) so they can get to their assigned work stations for the rest of the event..

Scheduling of Runs / Note to Handlers:

Dogs are assigned a running order after all entries are received. Entrants will be assigned a preliminary running order from number one to the end of the entry based on date of receipt of entry. A request for a special run position in an event must accompany the entry form and will not be considered after entries are closed. In preparing your schedule, our experience is that it takes about one hour to run thirty dogs. Therefore, if your

AM event number is 70, it is likely that you will be posted in the second/third hour (prior to the lunch break).

For handlers with multiple dog entries, please indicate on your entry form that your dogs should be separated in the running order. Typically, additional dogs with one handler will be put into the running order at least 10 dogs (or 20 minutes) apart to allow sufficient time to prepare the next dog(s) for running. If not instructed to do otherwise, the Event Secretary will place single handler dogs a reasonable distance apart in the run order to avoid unnecessary delays during the event.

COURSE AND EQUIPMENT

Field Conditions: The course is reasonably flat, level, and mowed. The actual running area is approximately 155 yards long x 5 yards wide, with a combination of movable chain link fence sections and plastic type barrier. The release line is ten feet behind the starting line. The course is 100 yards long with electronic start and finish line timers and up to a 50-yard run-out area. Handlers may not walk/run the course with their dogs during the actual test.

The Lure:

The lure is propelled by a CONTINUOUS LOOP LURE SYSTEM whereby the lure, consisting of a plastic lure attached to a braided line is dragged along the ground in front of the dog by a motor driven drive wheel. At the end of the run, the lure is returned to the starting line on the continuous loop outside of the run area by the same motor driven drive wheel and placed at the starting position prior to the next run. Only one line is in the run area during each run. Safety is always the number one consideration in running this event

Timing:

Timing will be by electronic timers with a second set of backup electronic timers on site. The time to complete the 100-yard dash is recorded to the nearest 1/100th of a second. The time starts when any part of the dog breaks the electronic beam at the start line and stops when any part of the dog breaks the beam at the finish line. In the unlikely event that manual (stopwatch) timing would be needed, a starter's signal will signal the start when the dog's nose crosses the starting line, and the time will be recorded by two time-keepers, each operating stopwatches individually, when the dog's nose crosses the finish line. The time will be the mathematical average of the two manually recorded times.

Collars

Dogs may wear any collar except a choker collar, a prong collar or an electronic training collar. Be aware that there is a chance that tags hanging from the collar would become entangled on something during the run. Clips

or rubber bands may be used to hold the dog's hair. The owner assumes responsibility for the safety of the dog with regard to the dog's collar and paraphernalia on the dog.

The Running Process

The Paddock Master will coordinate the running of the dogs according to his/her best discretion. Dogs are scheduled according to the preliminary running schedule provided by the Event Secretary. Each entrant will receive a running order via email prior to the event. The schedule will also be posted in the inspection / paddock areas. Dogs will be called to "the line", "on deck" and "in the hole" positions. Dogs that are not present "in the hole" will be moved to the end of the running order. Any dog not present by the time that the AM or PM event ends will be considered absent.

The Start:

The Huntmaster directs the start of the test and is in control of the course and is in charge of all dogs and handlers on the field. He/she shall ensure that the handler understands safe release and retrieval procedures, that the lure is properly positioned, that the dog is properly positioned at the proper set back from the start, that the lure operator, timers and starting line signal person are ready and -- if all is in order -- shall signal the lure operator to start the lure. Typically, the signal to release your dog is signaled by "**tallyho.**"

Operation of the Lure:

The Lure Operator's job is to 1) ensure a safe run by operating the lure correctly, and 2) to get the best score for your dog. If your dog is new, that may mean operating the lure just in front of the dog to maintain his/her attention to get the dog going. (If you don't finish the run you don't get a score.) Tell the Huntmaster that your dog is a new dog.

If your dog is experienced, simply advise the Huntmaster about your "fast dog." He/she will tell the lure operator to run the lure well ahead of the dog to achieve the fastest time. We want you to have a good score.

The Finish and Retrieval of the Dog:

The principal delay in coursing events is the time it takes to retrieve dogs at the end of the runs. Please have someone familiar with the dog at the finish line prior to the time you get into the "in the hole" position in the running order. If you are having trouble retrieving your dog, please notify the Huntmaster that your dog is a "flight risk." We will attempt to assist in shortening the return field or assist in any way that we can.

Waiver of Liability

Neither the Field Committees nor the Club will be responsible for the loss or damage to any dog on the event grounds, whether as a result of an accident or any other cause. It is clearly understood that every dog entered in the test

is under the care, custody and control of its handler during the entire time the dog is on the premises. All owners/agents/exhibitors and other persons attending these tests hereby waive any claim against the club or its agents for any losses, damages, or injuries affecting self, dog, children, or personal property.
