PEDICURES

All scrubs and masks are made in house
in small batches using organic ingredients
\$60

cielo signature

Our Signature Pedicure will leave you feeling refreshed and rejuvenated. We start with a Himalayan salt scrub, followed by a lavender and eucalyptus mask enhanced with Lanza's CBD oil to cool and calm the skin.

peppermint coffee

Revive your skin's natural radiance with a coffee scrub followed by a refreshing peppermint mask. We have included vitamin E, collagen, and Calendula extract to help tighten the skin while stimulating new cell growth.

matcha green tea

Our matcha scrub was formulated to purify and exfoliate using raw sugar granules and premium matcha green tea powder. This scrub is followed by a mask enhanced with a signature blend of essential oils and hydrating jojoba oil to leave your feet and legs feeling soothed and nourished from within.

charcoal & clay detoxification

This pedicure starts with a sugar scrub containing charcoal, sunflower seed oil, and coconut oil to soften and exfoliate the skin. Our detoxifying mask made from raw and unfiltered apple cider vinegar and clay is then applied to extract metals and toxins from deep within the skin.
