Budget 2025: *Canada Strong* Creating an economy by Canadians, for Canadians.

**A government that spends less,
invests more, and delivers better:
that's how we build Canada Strong.**

Budget 2025: *Canada Strong* is our plan to transform our economy from one that is reliant on a single trade partner, to one that is stronger, more self-sufficient, and more resilient to global shocks.

Our plan builds on Canada's strengths:

- world-class industries,
- skilled and talented workers,
- diverse trade partnerships,
- a strong domestic market where Canadians can be our own best customers.

We are building Canada Strong.

This is a plan to build the major infrastructure, homes, and industries that grow our economy and create lasting prosperity. This is a plan that will protect our communities, our borders, and our way of life. This is a plan to empower Canadians with better careers, strong public services, and a more affordable life. We are building a stronger economy, so that Canadians can build their own future.

To do that, Canada's new government is delivering an investment budget. We are spending less on government operations – and investing more in the workers, businesses, and nation-building infrastructure that will grow our economy.
