

PELAGIA MARINE

THE VESSEL

Pelagia is an 8 m Noosa Cat with dual Yamaha 225 hp outboards. She is 2C surveyed for a skipper plus seven passengers, operating up to 30 NM offshore. *Pelagia* rides very comfortably, with a spacious back deck, pot winch, side door for easy water access, and solid dive ladder for safe re-boarding. The enclosed wheelhouse is ideal for dry or sensitive work, while the central doorway still allows clear communication between skipper and team. She offers excellent visibility with windows all round, ample dry storage, and a portalo. *Pelagia* is versatile with a shallow draft, and can be moored at Tantabiddi or launched at any boat ramp.

THE TEAM

Jess Strickland holds a PhD in marine science and has worked across research, government (including DBCA), consultancy, and tourism, with extensive field experience along the Ningaloo Coast, Kimberley, Queensland, and the Northern Territory. **Sam Coe** is a marine biologist with a decade of marine experience, including over eight years in the Ningaloo whale shark industry, most recently as lead skipper and fleet manager. He also brings broad expedition experience across Australia and internationally. Both Jess and Sam hold Master <24 m, MED II, Coxswain, Divemaster, First Aid, CPR, Advanced resus, Provide O2 and STCW certifications.
