

I just want to let you know what a great job you did in coordinating the Wonderful Roofing Co. that you provided for the roofing project.

They worked from sun up to sun down in order to get the project done as quickly and smoothly as they could. Heat wasn't a concern. Its a hard job and I could not believe their roofing talent. They were a very nice group of young men and did an excellent job.

Dale filled up a big cooler with ice and Gatorade for them and they were so appreciative.

They cleaned up everything after and they were amazing.

Thank You Erin as it is so much appreciated.

Have a great weekend.
