

We recently had a bad hail storm go through our neighborhood & it did very extensive damage to our home. I have a friend who had his roof done by Crest Exteriors & he said I should have them come out & take a look at the damage. I gave them a call & was put into contact with the owner of the company, Dan Bowling. He personally came out to my home, & found damage I did not know that was there. He met with my insurance adjuster & handled everything with my insurance company! As a business owner myself, I cannot tell you how nice it was to have Mr. Bowling take care of all of these details for me !!! Dan not only got my roof & siding taken care of, but also saw to it that the gutters were replaced, deck refinished, & cracked brick on the front of my house were part of the repairs, items that the insurance company said would not be covered. (He made sure they were!!! ) The work was done quickly & with great skill !!! The cleanup was great!!! (No nails or scraps could be found) I cannot begin to tell you how happy we are with the service we received & the finished product that we got!! Thank-you Crest Exteriors!! Thank-you Mr. Bowling!!!!
