Down for doughnuts!

David and Lisa Cooper were high school sweethearts that got married in 1987. Their first child, Zachary was born in 1989 with Down syndrome. The doctors told the Coopers that they did not have to take Zachary home, they could just sign some papers and leave him. David told the doctors that Zach was their son and he would be going home with them! Zach overcame many surgeries and medical issues and it was a dream to have a business where Zach could work side by side with his dad. One night, over dinner, Zach said, "I want a doughnut shop" and Down for Doughnuts was started. Down for Doughnuts offers doughnuts, muffins, coffee and other food and drinks. The staff consist of a manager and 4-6 individuals with disabilities. The business is in Mooresville, NC and was recently featured on Spectrum News Carolina.
