

U and Universal

The Department of Health and Human Services offers a help line for parents of children and youth with special health care needs. Established in 1998, the help line facilitates connections between parents and resources in the community to benefit children with physical, developmental, emotional, or behavioral conditions.

The helpline number is: 1-800-662-HELP

Did you know?

Midterm elections will be held on Tuesday, Nov 6. To learn about the Candidates, check your registration status, or to find out where to vote, go to: ncvoterguide.org

Universal will occasionally send a small reward to individuals who have exhibited good clinical documentation practices. Ten (10) of these employees have recently received gift cards for accurate and timely documentation. Universal will continue this practice on an on-going basis at random intervals. We appreciate all our Team members who strive for excellence in meeting the documentation requirements.
