

THE VINE SISTERS

DECLARATION OF INDEPENDENCE FROM NEUROLAW AND TECHNOLOGICAL TYRANNY

I make this declaration for myself and in solidarity with all individuals who have been subjected to or are at risk of involuntary experimentation, surveillance, targeting, or digital control.

I, the LIVING MAN OR WOMAN, standing as a free and sovereign being endowed by my Creator with unalienable rights, do hereby declare my absolute and final independence from any and all NEUROTECHNOLOGICAL SYSTEMS, BIOMETRIC SURVEILLANCE FRAMEWORKS, COGNITIVE INTRUSIONS, and so-called NEUROLAW regimes, whether domestic or foreign, public or private.

I reject any contract, statute, ordinance, executive order, corporate policy, international agreement, treaty, foreign regulation, or technological platform that attempts to override, subvert, bypass, digitize, encode, monitor, record, modify, interfere with, or otherwise trespass upon the sacred DOMAIN of the HUMAN MIND.

I assert that NEURO LIBERTY is an inherent and unwaivable right of every LIVING MAN OR WOMAN. My thoughts are private property. My cognitive processes are sovereign. My memories are not subject to indexing, storage, deletion, or seizure. My identity is not a corporate construct. My brainwaves are not a commodity. My neurological signature is not evidence.

I hereby declare all agreements, contracts, clickwraps, end-user licenses, medical releases, data terms, privacy policies, and technology terms, whether signed, clicked, scrolled, presumed, or coerced, regarding NEUROTECHNOLOGY, BIOMETRICS, or BRAIN DATA, to be NULL AND VOID AB INITIO, unless supported by explicit, written, wet-ink INFORMED CONSENT of the living signer. This includes any presumed or artificial consent resulting from future incapacitation, imprisonment, medical restraint, or mental impairment. The absence of communication or perceived compliance shall not be construed as agreement under any circumstance.

Spiritual and Legal Sovereignty Declaration

I, the LIVING MAN OR WOMAN, a sovereign human being created by God and endowed with unalienable rights, hereby declare my full spiritual, psychological, physical, and intellectual autonomy. I do not consent to any actions, programs, or technologies that violate or exploit my mind, body, or soul under any pretext, including but not limited to national security, public health, behavioral science, or innovation.

I assert the following neurorights as universally binding and non-waivable:

- Mental Privacy
- Cognitive Liberty and Agency
- Mental Identity and Integrity
- Protection from Algorithmic Bias
- Equitable Access and Consent

I do not consent to the collection, manipulation, or surveillance of my brain signals, emotional patterns, biometric identifiers, or neural activity under any condition.

I declare, permanently and irrevocably, that I do not consent to any form of human experimentation on my body, mind, or spirit, whether medical, pharmaceutical, psychological, neurotechnological, genetic, electromagnetic, or behavioral. I specifically reject:

- Any unauthorized ingestion, injection, or implantation
- Experimental procedures disguised as treatment or diagnosis
- Use of my tissues, fluids, or body for covert programs

Any such acts constitute crimes against humanity.

All neurological, biological, biometric, genomic, and bioenergetic data originating from me are my exclusive property. I do not authorize any storage, analysis, transfer, or monetization of this data. Any such action constitutes theft, trafficking, and a breach of international law.

I explicitly revoke and deny consent to any form of dark magic, occult practices, ritualistic bindings, curses, hexes, spells, energetic manipulations, or spiritual interferences—whether performed by individuals, cults, secret societies (including but not limited to Freemasons, Illuminati, or fraternal orders), entities, or multi-dimensional forces. This includes any implied soul contracts, karmic agreements, or ancestral ties formed through deception, coercion, or without my full awareness.

Let this stand as eternal spiritual notice: any individual, institution, government, cult, or entity engaged in covert experimentation, digital slavery, remote assault, or occult violation is hereby placed on notice. You are in violation of divine law and subject to spiritual and legal judgment.

As written in Psalm 91, Ephesians 6, Deuteronomy 18:10-12, and Galatians 5:19-21, I place my trust in the Most High God. I wear the full armor of God, reject all works of darkness, and declare that no weapon, physical, technological, or spiritual, formed against me shall prosper. This declaration is spiritually sealed and stands as a testament of my faith and divine protection.

This sovereignty is legally grounded in the frameworks listed in Annex B and revokes all presumed consent to any international data sharing programs, including but not limited to the Five Eyes alliance, ECHELON, and other global surveillance systems. I reject any biometric, neurotechnological, or psychological experimentation conducted by or shared among foreign or domestic intelligence partners, including but not limited to agencies in the United States, United Kingdom, Canada, Australia, and New Zealand.

Full Affirmations + FISA Rejection

I affirm:

1. That INVASIVE INTEGRATION of HUMAN BIOLOGICAL MATERIAL with machines, neural meshes, implants, or nanotech is a violation of my bodily sovereignty and shall be treated as aggravated assault.
2. That NON-INVASIVE DEVICES which read brain data, cognitive patterns, or biometric signals shall not be imposed upon me without full disclosure and written, voluntary, noncoerced INFORMED CONSENT.
3. That all forms of NEUROLAW, as applied to LIVING MEN AND WOMEN, are hereby rejected in whole and shall have no force or effect.
4. That AI or synthetic approximations of human consciousness, behavior, or memory shall never be used to impersonate, replace, or profile me.
5. That SOVEREIGN IMMUNITY, QUALIFIED IMMUNITY, CORPORATE SHIELD, or any such legal fiction shall not protect perpetrators of cognitive trespass.
6. That the CONSTITUTION FOR THE UNITED STATES OF AMERICA (1789) is the only lawful foundational charter that secures my rights, and that the 1871 U.S. CONSTITUTION is a corporate fiction not binding upon sovereign men and women without explicit contract.

I further reject any surveillance authorized under the Foreign Intelligence Surveillance Act (FISA), including Section 702 warrantless collections or FISA court warrants obtained through misrepresentation, errors, or without probable cause, as such actions have been ruled invalid in cases of misuse and constitute illegal spying on U.S. persons, refugees, migrants, or stateless individuals. I revoke consent to any bulk transfer of my

sensitive personal data, including neural or government-related info, to countries of concern as per Executive Order 14117.

Spiritual Jurisdiction + Signature

This declaration is spiritually and legally binding, under the eternal jurisdiction of the Creator and divine law, as affirmed in Psalm 91, Ephesians 6, Deuteronomy 18:10-12, and Galatians 5:19-21. I affirm under penalty of perjury, under universal jurisdiction and natural law, that the above statements are true, and I make this declaration freely and without coercion.

Let this stand as eternal spiritual notice: any individual, institution, government, cult, or entity engaged in covert experimentation, digital slavery, remote assault, or occult violation is hereby placed on notice. You are in violation of divine law and subject to spiritual and legal judgment.

This DECLARATION is my living testimony, witnessed by my signature and sealed by my breath.

Exhibit A: The C.L.O.N.E Act of 2025

Cognitive Liberty Opposing Neurological Exploitation Act of 2025

Section 1. Short Title

This Act shall be cited as the C.L.O.N.E. Act of 2025, short for Cognitive Liberty Opposing Neurological Exploitation.

Section 2. Use of Plain English and Comprehension Guarantee

This Act is written in plain English so that every LIVING MAN OR WOMAN—of any educational background, legal training, or social status—can read, understand, and enforce the rights secured herein without ambiguous legal constructs. The meaning of each section shall be taken in accordance with the ordinary understanding of the American People.

Section 3. Definitions

- CITIZEN: A LIVING MAN OR WOMAN who owes allegiance to a nation or state and is entitled to its protection. Under this Act, the term shall never refer to any CORPORATION, TRUST, ESTATE, or ARTIFICIAL ENTITY.
- CITIZEN ETHICS COMMITTEE: The public-elected oversight body tasked with evaluating, regulating, and enforcing provisions of this Act.
- COMMITTEE MEMBERS: Individuals elected by the PEOPLE to serve on the CITIZEN ETHICS COMMITTEE under the terms of this Act.
- CONSTITUTION: Shall include:
 - THE CONSTITUTION FOR THE UNITED STATES OF AMERICA: Refers to the Constitution of 1789 as originally ratified, including the Bill of Rights, securing the unalienable rights of all LIVING MEN AND WOMEN.
 - THE CONSTITUTION OF THE UNITED STATES OF AMERICA or U.S. CONSTITUTION: Refers to the altered corporate charter established under the Act of 1871, which created a separate federal corporate entity. This Act recognizes only the original Constitution of 1789 as the lawful and binding CONSTITUTION.
- FAMILY MEMBER: A spouse, child, sibling, parent, in-law, or domestic partner of a COMMITTEE MEMBER.
- INFORMED CONSENT: Voluntary, written, and specific agreement by a LIVING MAN OR WOMAN, not presumed through silence or digital interaction.

- **INVASIVE INTEGRATION:** Any technology, procedure, or substance that merges HUMAN BIOLOGICAL MATERIAL (e.g., brain tissue, neural cells, organoids) with machines or synthetic platforms.
- **LIVING MAN OR WOMAN:** A living, breathing, natural human being, not a corporation, trust, estate, or administrative entity.
- **MANDATORY PRISON, HEAVY FINES, and PERMANENT DISQUALIFICATION:** Penalties imposed for corruption, misconduct, or violation of any section of this Act.
- **MONETARY PAYMENTS, PROPERTY, GIFTS, or ANYTHING OF VALUE:** Any compensation, benefit, favor, asset, contract, or exchange of tangible or intangible wealth.
- **NEURO LIBERTY:** The inherent right of every LIVING MAN OR WOMAN to be free from cognitive surveillance, interference, or manipulation.
- **NEUROCEUTICAL:** Any chemical, pharmaceutical, nano-agent, or substance designed to affect brain function, cognition, memory, emotion, or behavior.
- **NEUROLAW:** Any legal framework, domestic or international, that uses brain data, neuroimaging, or NEUROTECHNOLOGY to judge, track, or control behavior or cognition.
- **NEUROTECHNOLOGY:** Any interface, device, substance, or integrated system used to measure, influence, simulate, enhance, or extract cognitive function or brain activity.
- **NO SALARY:** A mandatory prohibition on payment or reimbursement for COMMITTEE service.
- **NON-INVASIVE DEVICES:** External devices (e.g., EEG headsets, Fitbits) that collect data without BIOLOGICAL MERGER. These require consent but are not banned outright.
- **NULL AND VOID AB INITIO:** Invalid from the beginning; having no legal effect.
- **PERSON / INDIVIDUAL:** Refer to a LIVING MAN OR WOMAN.
- **SOVEREIGN IMMUNITY, QUALIFIED IMMUNITY, DIPLOMATIC IMMUNITY, or CORPORATE SHIELD:** Legal doctrines granting individuals or entities protection from prosecution or liability, explicitly rejected under this Act.
- **SUBPOENA POWER:** Legal authority to demand testimony, documentation, or materials for enforcement or public oversight.
- **TRANSPARENT AND NONPARTISAN:** Free from political control or secrecy; open to public inspection and participation.
- **TREASON:** An act of betrayal against the rights of the LIVING MEN AND WOMEN under this Act.
- **TREATY, FOREIGN REGULATION, or INTERNATIONAL AGREEMENT:** External laws, rules, or accords not permitted to override protections in this Act.

Section 4. Jurisdiction, Republic Recognition, and Legal Scope

- (a) This Act applies to all living men and women in the Republic States and territories comprising the United States of America, as well as within the jurisdiction of the incorporated UNITED STATES entity and its political subdivisions.
- (b) It shall apply equally to the corporate structures of each state and federal agency as well as the living population within them.
- (c) The Republic and its living constituents are distinctly recognized herein and protected above the administrative structure known as the corporate United States and its state subsidiaries.
- (d) No consent to neurotechnology shall be presumed through use of public infrastructure, silence, residence, or employment.

Section 4A: Universal Applicability and Jurisdiction

This declaration applies universally to all jurisdictions, invoking principles of international customary law and universal jurisdiction for violations such as torture or crimes against humanity. It serves as notice under treaties ratified by states worldwide, and I reserve the right to submit complaints to international bodies like the UN Human Rights Committee, Committee Against Torture, or Inter-American Court of Human Rights.

Section 5. Informed Consent Requirements

(a) Consent must be:

- Written, signed in ink by the living person;
- Specific to each use, purpose, and device;
- Freely given, not coerced or conditioned on employment, banking, or participation in society.

(b) The following shall not constitute consent:

- Use of software or digital applications;
- Click-through agreements or silence;
- Participation in employment, public benefits, housing, education, or medical systems.

(c) No person under the age of twenty-one (21) shall be considered capable of giving full legal consent to any neurotechnology, biometric surveillance, or Neurolaw-related participation. Any such purported consent shall be deemed invalid, null, and void.

(d) For persons under the age of 21, legal authority shall remain with the biological parents or legal guardians. No corporate, government, or institutional entity shall presume emancipation or independent consent status.

(e) This declaration revokes all presumed consent to any international data sharing programs, including but not limited to the Five Eyes alliance, ECHELON, and other global surveillance systems. I reject any biometric, neurotechnological, or psychological experimentation conducted by or shared among foreign or domestic intelligence partners, including but not limited to agencies in the United States, United Kingdom, Canada, Australia, and New Zealand. I revoke consent to any bulk transfer of my sensitive personal data, including

neural or government-related info, to countries of concern as per Executive Order 14117. I further reject any surveillance authorized under the Foreign Intelligence Surveillance Act (FISA), including Section 702 warrantless collections or FISA court warrants obtained through misrepresentation, errors, or without probable cause, as such actions have been ruled invalid in cases of misuse and constitute illegal spying on U.S. persons, refugees, migrants, or stateless individuals.

Section 6. Prohibited Discrimination

(a) No person may be denied access to employment, education, healthcare, banking, housing, or utilities for refusal to participate in neurotechnology, biometric ID, or behavioral compliance systems.

(b) No employer, bank, school, landlord, or government office may:

- Require neuro-consent for access to rights or services;
- Use biometric systems as a condition for participation;
- Track or penalize individuals for behavioral data collected without consent.

(c) No social credit scoring system may be used by any entity to deny access, impose penalties, or rate individuals based on behavior, expression, associations, or digital reputation.

(d) No entity may discriminate against me for refusing neural augmentation, data sharing, or participation in neurotech systems, including denial of access to jobs, healthcare, or public services. This includes protections against bias in AI using neural data.

Section 7. Protection of Biological and Neurological Property

(a) All biological and cognitive materials are the sole private property of the living person from whom they originate. These include but are not limited to: DNA, RNA, blood, saliva, urine, semen, ova; Brainwaves, EEG, EMG, biometric signals; Facial maps, fingerprints, voiceprints, retinal scans; Synthetic models, AI-clones, and behavioral simulations. Neural data, including information generated by the brain or nervous system, is classified as sensitive personal information and afforded the same protections as biometric or health data under applicable laws.

(b) Women's biological materials are equally protected, including: Placenta, umbilical cord, menstrual blood, ova; Amniotic fluid, breast milk, prenatal data, fertility signals.

(c) Catch-All Protection Clause: Any biological or neurological component, known or yet to be discovered, whether physical, digital, electrical, or synthetic, is protected whether or not listed herein. This protection extends to any emerging technologies, including quantum computing, metaverse simulations, AI-driven predictive policing, or any systems not yet disclosed or developed. No future technology or terminology shall serve to evade this provision.

(d) Child Protection Clause: No child, minor, or unborn person may be subject to neurotechnology, biometric surveillance, Neurolaw applications, or cognitive experimentation of any kind without the explicit, informed, written consent of both biological parents or legal guardians. Any attempt to deploy, test, surveil, or enroll a

child into a neurotechnological system shall be treated as aggravated assault under this Act and prosecuted to the fullest extent of the law.

(e) CPS and Protective Custody Clause: No child in the custody of Child Protective Services (CPS) or any similar government or private agency shall be subjected to any neurological, psychological, behavioral, pharmacological, or cognitive intervention or testing without full compliance with this Act. Any agent, representative, contractor, or employee who initiates, authorizes, or conceals such a procedure shall face the maximum criminal penalties defined in Section 8, including enhanced penalties for abuse of power against minors.

(f) Protection for the Incarcerated: No prisoner or detainee shall be subject to neurotechnology, biometric programming, brain scans, behavior modification, or cognitive experimentation without full, voluntary, written informed consent as defined in Section 5. Any violation by prison staff, wardens, contractors, or public entities shall result in criminal prosecution and full civil liability.

(g) Protection for the Elderly: No elderly person in any facility, care program, or home shall be coerced, manipulated, or conditioned into consent for neurotechnology-based systems. Violations by caretakers, institutions, agencies, or relatives shall trigger both fiduciary fraud charges and neuro-abuse charges under this Act.

(h) Protection for the Mentally or Physically Disabled: Any person with limited cognitive, physical, or communicative capacity shall be presumed unable to consent unless adjudicated otherwise by an independent tribunal. No guardian, fiduciary, or institution shall authorize neurotech-related participation without full compliance with this Act.

(i) Universal Incapacity Clause: No human being shall be subject to neurological manipulation, surveillance, or control through technological means if they are, for any reason, unable to competently and voluntarily give informed consent. Coercion, deception, or exploitation of incapacity shall be met with enhanced criminal and civil penalties under Section 8.

(j) Extension to Secret Societies and Contractors: This notice applies to any secret societies (including Masonic or fraternal orders, Illuminati, or similar cults), federal or local law enforcement bodies, fusion centers, InfraGard and its affiliates (which disseminate information to thousands of companies and organizations for potential misuse in surveillance or targeting), or private contractors participating, knowingly or unknowingly, in biometric tracking, psychological targeting, electromagnetic harassment, or covert experimentation on my person. I formally revoke consent to any current or future technological, ritualistic, or classified program violating my sovereignty.

(k) Denial of Third-Party Consent: I deny any third party, government agency, legal proxy, medical institution, or AI system the right to speak, act, or consent on my behalf, especially under duress, classification, emergency law, or coercion. My autonomy cannot be overridden, suspended, or transferred without full, present, and informed consent.

(l) Rejection of Use in AI and Specific Systems: I do not consent to the use of my biometric data, identity, or likeness in AI training, behavioral prediction, digital twin modeling, or surveillance systems, including but not limited to those operated by Palantir, XRVision, Clearview AI, Flock Safety (and its ALPR networks for vehicle tracking, including cross-jurisdictional TALON systems), or similar contractors, whether governmental or corporate. I reject all suspensions of my rights under emergency declarations, biodefense protocols, or national

security pretexts, including powers derived from the 21st Century Cures Act, PREP Act, or any Executive Orders (such as EO 13526) that bypass informed consent or public transparency.

(m) Denial of Nanotechnology and Synthetic Agents: I deny consent to the deployment, testing, or insertion of nanotechnology, self-assembling materials, or synthetic agents into or around my body. This includes graphene oxide, quantum dots, smart dust, hydrogel, neural dust, implantable sensors, or any undisclosed bioactive substances or micro-scale devices for neural monitoring or manipulation.

(n) Rejection of Gangstalking and Coordinated Harassment: I explicitly do not consent to any form of gangstalking, organized stalking, or coordinated harassment, including but not limited to physical or digital following by multiple individuals, noise campaigns, slander or gossip to isolate me, vehicle tailing (via systems like Flock Safety ALPR cameras or networked license plate readers), workplace or community sabotage, electronic surveillance (such as voice-to-skull transmissions or remote neural monitoring), or any psychological, electromagnetic, or tactical interference designed to cause distress, fear, or control. This revocation applies to any involvement by fusion centers, InfraGard and its affiliates (which disseminate information to thousands of companies and organizations for potential misuse in surveillance or targeting), federal or local law enforcement agencies, private contractors, community groups, or proxies acting on behalf of government, corporate, or unknown entities. Any such acts constitute violations of my rights and shall trigger immediate demands for cessation, deletion of related data, and pursuit of legal remedies under the 4th Amendment, Electronic Communications Privacy Act, and anti-stalking laws.

(o) Protection Against Directed Energy Weapons and No-Touch Torture: I do not consent to the use of directed energy weapons (DEWs), microwave or scalar wave technologies, low-frequency infrasound, or any form of no-touch torture that causes physical pain, tissue damage, neurological disruption, or symptoms akin to Havana Syndrome. This includes any covert deployment for behavioral modification, experimentation, or harassment.

(p) Rejection of Synthetic Telepathy and Mind-Reading Technologies: I revoke consent to any synthetic telepathy, voice-to-skull (V2K) communications, remote neural monitoring (RNM), or brain-computer interfaces that read, transmit, or implant thoughts, images, or commands without my knowledge. Any such intrusion violates my mental privacy and cognitive integrity.

(q) Denial of Poisoning, Drugging, or Chemical Manipulation and Protection for Family, Pets, and Property: I explicitly reject any unauthorized poisoning, drugging, fumigation, or introduction of chemicals, toxins, or psychoactive substances into my environment, food, water, or air, whether for inducing symptoms, experimentation, or control. This includes aerosolized agents or environmental contaminants used in conjunction with gangstalking. I further revoke consent to any targeting, surveillance, experimentation, or harassment of my family members, pets, or personal property (including vehicle tampering or property sabotage). Any violation shall be pursued as aggravated assault and property damage under applicable laws.

(r) Protection for Pregnant Women and Unborn Children: No pregnant woman or unborn child shall be subjected to neurotechnology, biometric surveillance, experimentation, or environmental exposures (e.g., chemical or electromagnetic) without explicit, informed, written consent of the mother. Any violation constitutes a breach of the right to life and health under international law.

(s) Protection for Indigenous Peoples: No indigenous person or community shall be subjected to neurotechnology, biometric data collection, or surveillance that exploits their genetic, cultural, or neurological resources without explicit, informed, collective consent, per the UN Declaration on the Rights of Indigenous Peoples.

(t) Protection for Refugees, Migrants, and Stateless Persons: No refugee, migrant, or stateless person shall be subjected to neurotechnology, biometric surveillance (e.g., via Flock Safety ALPR systems at borders), or experimentation in detention or community settings without explicit, informed consent. Such actions violate equal protection and non-discrimination principles.

(u) Protection for Individuals in Mental Health Facilities: No person in a mental health facility shall be coerced or subjected to neurotechnology, behavioral interventions, or surveillance without explicit, informed consent, verified by an independent advocate. Violations constitute degrading treatment under CRPD and UNCAT.

Section 8. Criminal Penalties for Violation

(a) Any person, institution, corporation, government agency, or contractor found to have violated any provision of this Act shall be subject to:

- Up to 25 years in federal prison;
- Fines not less than \$1,000,000 per individual harmed;
- Full restitution and punitive damages payable directly to the victim(s).

(b) Any law enforcement officer, attorney, or judge who violates this Act shall be charged with Public Corruption, stripped of immunity, and subject to permanent expulsion from public service, with no eligibility for future employment or contracts with government bodies.

(c) Any politician, administrator, or agency director found to have engaged in or facilitated violations of this Act shall face immediate suspension without pay, trial for abuse of fiduciary duty, and, upon conviction, permanent expulsion from all positions of public trust.

(d) Any third-party employer, contractor, or vendor found to have employed a banned individual or knowingly facilitated evasion of this Act shall have its government contracts revoked and shall be barred from new government contracts for a period of no less than ten (10) years.

(e) This ban shall extend to all affiliate entities, subsidiaries, and subcontractors regardless of degrees of separation or administrative layers. All violators shall be jointly and severally liable.

(f) Pharmaceutical and Neuroceutical Accountability: No pharmaceutical, neuroceutical, or bioscience corporation shall possess immunity for harm resulting from the use, distribution, experimentation, or promotion of neurotechnology, brain-altering substances, or bio-integrated systems. Any company found to have conducted unauthorized experimentation, failed to disclose adverse effects, or enticed participation through financial incentive or coercion shall be subject to:

- Immediate revocation of operating licenses;
- Permanent ban from all government contracts and grants;
- Civil and criminal prosecution with no cap on damages;
- Classification of all victims as harmed parties entitled to federal restitution.

Section 8A: Demand for Purge, Removal, and Accountability

I demand the full deletion, removal, and permanent cessation of any and all programs, databases, implants, files, digital twins, simulations, or data sets connected to my identity, body, mind, or likeness. I further demand immediate investigations into any violations, full disclosure of all involved parties (including government agencies, corporations, or contractors), any FISA warrants or Section 702 queries targeting me or protected groups (e.g., refugees, indigenous peoples), and restitution for harms suffered, including financial compensation, medical support, and punitive damages. I demand full compliance with FOIA requests for any records related to my surveillance, targeting, or data under Section 702 or similar programs, with penalties for non-disclosure. I request formal written confirmation of compliance. Non-compliance shall be pursued under universal jurisdiction, human rights laws, and class-action frameworks for targeted individuals.

Section 9. Prohibition of Promotional Manipulation and Advertising

(a) No media outlet, agency, private party, corporation, nonprofit, government entity, school, or affiliate may promote, advertise, market, or encourage the use or adoption of any neurotechnology, biometric system, or Neurolaw framework.

(b) This prohibition includes but is not limited to:

- Television, print, phone applications, video games, films, radio, websites, apps, and social media platforms;
- Messaging or imagery targeting children, teens, the elderly, the disabled, or those under financial, psychological, or legal duress;
- All marketing practices using animation, children's characters, youth influencers, subliminal messaging, or artificial intelligence to nudge consent.

(c) All packaging, documentation, or associated promotional material for any neurotechnology or biometric device shall carry a prominently displayed and plain-language warning of the potential harmful effects, known and unknown, with explicit disclosure of its intended use and legal implications.

(d) Any violation of this section shall be punishable by immediate product seizure, permanent ban of promotional rights, criminal prosecution for deceptive practices, and civil liability to affected parties.

Section 10. Enforcement and Standing

(a) Any living man or woman, regardless of citizenship status or legal disability, shall have standing to bring civil or criminal action under this Act.

(b) Courts shall have no discretion to dismiss actions based on procedural default where substantial rights have been alleged to be infringed under this Act.

(c) Injunctive relief, punitive damages, and writs of prohibition shall be liberally granted in favor of the injured party.

(d) This Act shall supersede any municipal, state, or corporate statute, rule, or ordinance that contradicts its provisions or is repugnant to natural liberty.

(e) No legislative body or agency may create any parallel regulation or carve-out intended to weaken or reinterpret this Act.

Section 11. Severability

If any provision of this Act is declared invalid or unenforceable by a court of competent jurisdiction, all remaining provisions shall remain in full force and effect.

Section 12. Implementation and Public Notification

- (a) This Act shall take effect immediately upon passage.
- (b) All agencies shall issue public statements recognizing the right to cognitive liberty and shall revise any forms, notices, or procedures that presume digital or implicit consent.
- (c) Public schools, hospitals, correctional facilities, and elder care programs shall post a public notice of the rights secured by this Act.

Section 13. Declaration of Constitutional Foundation

This Act reaffirms the natural rights set forth in the Declaration of Independence, and the Constitution for the United States of America (1789), as well as the Constitution of 1871 governing the corporate UNITED STATES. All living men and women shall be protected from encroachment by either body, whether as Republic members or as those subject to commercial jurisdiction.

Section 14. Prohibition of Neurolaw

All forms of “Neurolaw”, including any legal frameworks, international agreements, or court proceedings that rely on or validate brainwave data, neural scans, behavioral modeling, biometric indicators, or AI-generated psychological profiles, are hereby declared null and void within the jurisdiction of the united States of America and its Republic States.

Section 15. Title of Supremacy

This Act shall be known by its full title as the Cognitive Liberty Opposing Neurological Exploitation Act, and no other law, executive order, treaty, or corporate mandate shall supersede its provisions when applied to any living man or woman within the lands and jurisdictions of the United States of America.

Section 16. Citizen Oversight and Ethical Review Committee

- (a) A national CITIZEN ETHICS COMMITTEE shall be established to oversee compliance with this Act, evaluate proposed NEUROTECHNOLOGIES, and issue binding public findings.
- (b) COMMITTEE MEMBERS shall be elected by the PEOPLE from their own geographic areas using a structure similar to the Republican Party delegate system. Members shall serve TWO-YEAR TERMS, with a FIVE-YEAR COOLING-OFF PERIOD before re-election, and a MAXIMUM OF THREE TERMS total.

(c) No member shall serve on any other board, COMMITTEE, corporate position, political office, or government commission during their service on the COMMITTEE.

(d) No member may accept compensation, direct or indirect, including MONETARY PAYMENTS, PROPERTY, GIFTS, or ANYTHING OF VALUE for service on the COMMITTEE. There shall be NO SALARY or financial benefit whatsoever. No FAMILY MEMBER of any COMMITTEE member may benefit in any way, including through contracts, lobbying opportunities, or future positions. Violations will result in MANDATORY PRISON, HEAVY FINES, and PERMANENT DISQUALIFICATION from public service.

(e) The COMMITTEE shall have SUBPOENA POWER, authority to compel disclosure, issue public reports, and refer violations to criminal and civil enforcement bodies. It shall function independently of any branch of government.

(f) The COMMITTEE shall meet publicly at least once per quarter. All minutes, findings, and disclosures shall be publicly posted and freely accessible.

(g) The COMMITTEE shall be BANNED FROM LOBBYING for 5 years after service. No member may serve or advise any entity connected to NEUROTECHNOLOGY, surveillance, or data management during this time.

(h) All appointments, elections, and public participation in this COMMITTEE process shall be TRANSPARENT AND NONPARTISAN.

Section 17. No Immunity and No International Override

(a) No entity, official, agency, or organization, foreign or domestic, shall claim or be granted any form of SOVEREIGN IMMUNITY, QUALIFIED IMMUNITY, DIPLOMATIC IMMUNITY, or CORPORATE SHIELD from liability under this Act.

(b) No TREATY, FOREIGN REGULATION, or INTERNATIONAL AGREEMENT may override the protections secured in this Act.

(c) Any attempt by a U.S. official or entity to subordinate this Act to international or corporate mandates shall be deemed an act of TREASON against the constitutional rights of LIVING MEN AND WOMEN.

Section 18. Retroactive Nullification of Non-Compliant Agreements

All prior agreements, contracts, terms of service, or acknowledgments involving NEUROTECHNOLOGY, BIOMETRIC SURVEILLANCE, or AI SYSTEMS that did not meet the INFORMED CONSENT standards of this Act are hereby declared NULL AND VOID AB INITIO. No waiver, click-through, silence, or software interaction shall constitute valid consent under this law.

Section 19: Revocation of Implied Contracts and Legal Fictions

I hereby revoke, rescind, and nullify ab initio any and all implied, presumed, or fraudulent contracts, agreements, bonds, or trusts, whether under common law, UCC (Uniform Commercial Code), admiralty/maritime law, or corporate statutes, that may have been created through my birth certificate, social

security number, licenses, or interactions with government/corporate entities. No such fiction shall be used to justify surveillance, experimentation, or control over my person, property, or data.

Section 20: Rejection of Social Engineering and Gaslighting

I explicitly reject any form of social engineering, gaslighting, or psychological operations designed to discredit, isolate, or label me as delusional, paranoid, or mentally unstable to undermine my credibility or rights. This includes false narratives spread through community groups, media, or proxies, as well as tactics to manipulate my perception of reality or induce compliance. Any such actions violate my cognitive liberty and shall be pursued as psychological abuse under applicable laws.

Section 21: Generational and Posthumous Binding

This declaration shall remain binding beyond my lifetime. It represents a permanent and generational revocation of consent for myself, my descendants, my bloodline, my family members, and my pets. No child, heir, or loved one of mine shall be subjected to experimentation, surveillance, targeting, or harassment based on any actions or programs detailed herein.

Annex B: Legal and Spiritual References

This declaration is grounded in the following frameworks:

- The Nuremberg Code (1947): Prohibits non-consensual medical experimentation.
- The Universal Declaration of Human Rights (1948): Ensures basic human rights like privacy and dignity.
- The International Covenant on Civil and Political Rights (ICCPR), Articles 7, 9, 17, 18: Bans torture, protects privacy and freedom of thought.
- The UN Convention Against Torture (UNCAT), Articles 1, 5, 16: Prohibits cruel treatment, including non-consensual experiments, with universal jurisdiction for violations.
- The Convention on the Rights of Persons with Disabilities (CRPD), Article 15: Protects against non-consensual experiments.
- The Convention on the Rights of the Child (CRC), Articles 19, 34, and preamble: Shields children and unborn from abuse.
- The UN Declaration on the Rights of Indigenous Peoples (UNDRIP), Articles 7, 24: Protects indigenous genetic and cultural resources.
- The 1951 Refugee Convention, Article 3: Ensures non-discrimination for refugees.
- Emerging 2025 standards: ICCPR Articles 17, 18 (privacy, thought); UNESCO's 2025 Recommendation on Neurotechnology Ethics; Inter-American Declaration on Neuroscience and Human Rights; Chile's neurorights laws; state laws (Colorado, Minnesota, California) treating brain data as private.

- Jus cogens norms: Universal rules against torture and for human dignity.
- Spiritual Foundations: Psalm 91, Ephesians 6, Deuteronomy 18:10-12, Galatians 5:19-21, affirming divine protection against dark practices.
