WHAT WE OFFER

Established in 2014, SonCoast Procurement is a disadvantaged minority woman owned small business (EDWOSB) providing Aftermarket Spares support for the U.S. Department of Defense.

SonCoast has partnered with several manufacturers and authorized dealers to offer a vast scope of products. Our relationships enable us to fulfill a variety of procurement needs for our customers.

We have a state-of-the-art warehouse in Orlando, FL where we can stock items to take advantage of price breaks for our partners and to reduce long lead-times. Additionally, our team's logistical capabilities ensure we can deliver what you need when you need it. We can ship domestically and internationally.
