

The Five-Minute Daily Energy Routine

The Techniques: These simple techniques can benefit nearly anyone living in the stress-producing, polluted, nature-alien, energy-scrambling environments that mark our technological progress. I suggest you combine these methods into a “five-minute daily energy routine,” and that you use it every day. The Daily Routine builds positive habits into your energy field. The techniques are simple yet potent, and they are cumulative.

The Four Thumps

Use several fingers or knuckles to tap the spots shown in the pictures. Tap vigorously on each set of spots. Focus on breathing in through your nose and out through your mouth during all the tapping:

1. Begin by tapping on the top of your cheek bones, right beneath your eyes.
2. To locate K 27 points place your fingers on your collarbone and move them inward towards the U-shaped notch at the top of your breastbone. Move your fingers to the bottom of the U and then move down and out about an inch to find the spots. Tap or massage for ten to fifteen seconds.
3. Place the fingers of either or both hands in the centre of your sternum at the thymus gland. Tap there for fifteen to twenty seconds with your fingers or your knuckles.
4. Tap the Neurolymphatic Spleen points, beneath the breasts and down one rib, for fifteen seconds. Alternately, tap the Spleen acupuncture points, located on the side of the body about four inches down from the arm pits, for fifteen seconds. If either set is more tender use these points in the future.

The Cross Crawl

Balances and harmonizes energy, improves coordination, and clears thinking.

1. While standing, seated or lying down, lift your right arm and left leg simultaneously.
2. As you let them down, raise your left arm and right leg.
3. Repeat, this time exaggerating the lift of your leg and the swing of your arm across the midline to the opposite side of your body.
4. If you can, twist so that your elbow touches your opposite knee.
5. If you are unable to do this for any reason lift one knee and touch it with the opposite hand rather than your elbow. Then lift the other knee and touch it with the other hand.
6. Continue this exaggerated march for at least a minute, again breathing in deeply.

The Homolateral Crossover Repatterning

*If doing the Cross Crawl tires you or leaves you feeling uncoordinated, use this Homolateral Crossover Repatterning technique.

1. March in place, lifting your right arm with your right leg, and then your left arm with your left leg. Breathe deeply throughout the entire exercise.
2. You can adapt these instructions for sitting or lying down. If you are too ill or weak to move your limbs another person can lift them for you. Do not strain yourself. Straining sends your energies back into homolateral, so make it easy on yourself and rest whenever necessary.
3. After about twelve lifts of your arms and legs in this homolateral pattern, stop and change the pattern to a Cross Crawl - lifting the opposite arm and leg - again for about twelve lifts. If it is difficult to coordinate a Cross Crawl, you can touch your right hand to your left knee and your left hand to your right knee as you step.
4. Repeat the pattern twice more - twelve homolateral movements, then twelve Cross Crawls. Anchor it in by adding twelve additional Cross Crawls.
5. End with the Four Thumps.

The Wayne Cook Posture

Focuses your mind. Allows you to untangle inner chaos, see with better perspective, think more clearly, and learn more

1. Sit with your spine straight. Place your left foot over your right knee. Hold your left ankle with your right hand and the bottom of your left foot with your left hand.
2. Breathe in slowly through your nose, letting the breath lift your body, while stretching your leg toward you. Exhale slowly through your mouth, relaxing your body. Repeat four or five times.
3. Switch to the other foot and repeat this entire process.
4. Uncross your legs and “steeple” your fingertips, resting your thumbs just above the bridge of your nose. Breathe slowly in through your nose and out through your mouth three or four times. On exhale, separate your thumb slowly stretching your skin on your forehead. Slowly bring your hands down in front of you. Surrender to your breathing.

The Crown Pull

Relieves mental congestion and headaches, clears and refreshes the mind, sharpens memory, and opens the Crown chakra to higher inspiration

1. Place your thumbs at your temples and your fingertips resting at the middle of your forehead.
2. Slowly, with pressure, pull your fingers apart to the hairline stretching the skin above your eyebrows.

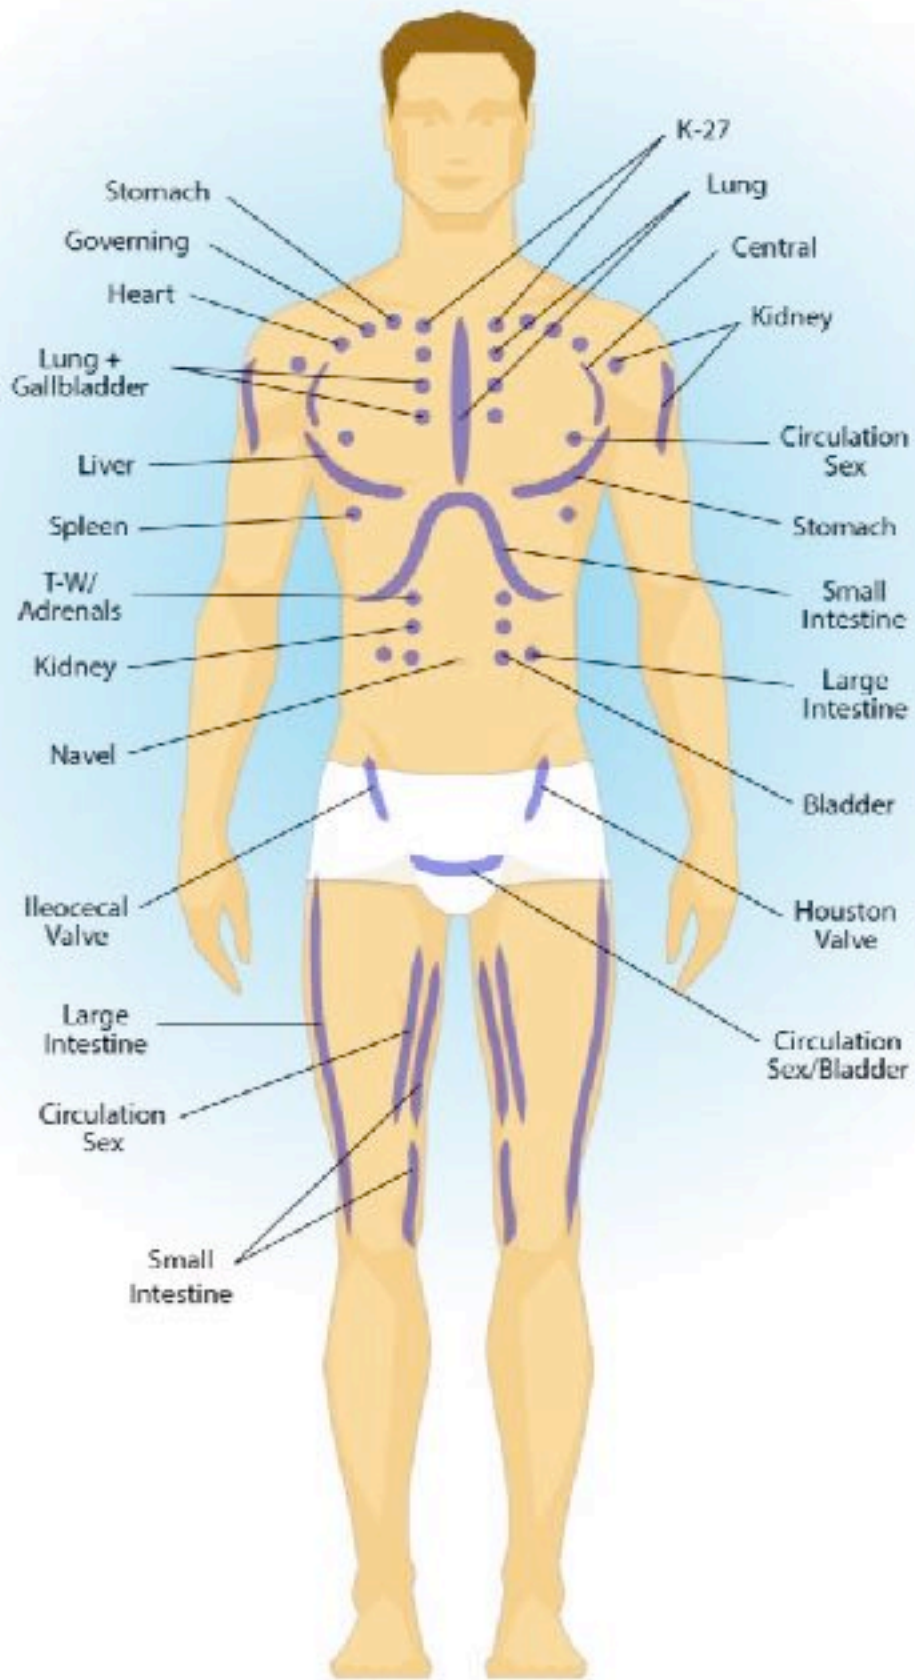

3. Place your fingers at the hairline and repeat the stretch.
4. Repeat this pattern starting at the top, centre and back of your head. Continue all the way back and down until you reach the base of your neck. Use pressure as you pull.
5. Move down to your shoulders and push your fingers in and hold. Then pull across your shoulders towards the front. Hold your hands there until it feels right, then release and drop your hands/arms.

The Neurolymphatic Massage

Energizes, sends toxins to your body's waste removal system. Clears stagnant energies from the body.

1. Massage a few points shown in the figure below using firm pressure while moving the skin up and down or with a circular motion.
2. Massage each point for about five seconds. Alternate each day, so that you get through all of the points every few days, particularly if you suffer from an autoimmune disorder to avoid overwhelming your system.
3. Work tender points for several extra seconds. The tenderness may not go away immediately, but you are clearing the congestion.
4. Neurolymphatic massage is great to do on a daily basis. You will feel a difference.
5. One important note: Neurolymphatic massage helps clear toxins. If you have a lot of toxins in your system you may experience some nausea from this technique as the toxins are released from your bloodstream into the system. This is not harmful, but you may want to proceed more slowly in future sessions.

Connecting Heaven and Earth

Opens the meridians, expels toxic energies, and stimulates fresh energy to flow through the joints.

1. Start with your hands on your thighs, fingers spread.
2. Inhale through your nose, circle your arms out, and bring your hands together in prayer position. Exhale through your mouth.
3. Inhaling through your nose, stretch one arm up and one down, pushing with your palms. Hold, exhale through your mouth, and return to the prayer position. Repeat switching arms. Do this twice for each arm.
4. Drop your arms down, fold your body forward at the waist, and relax with your knees slightly bent. Take two deep breaths before slowly returning to a standing position as you fluff your aura by rolling your hands outward.

The Celtic Weave

Provides patterning that balances and strengthens your energy systems.

1. Stand tall, hands on thighs. Breathe deeply, in through the nose and out through the mouth throughout.
2. Rub hands together, shake them off, face palms, and try to feel the energy between them. Rub and shake again, place palms close to ears and take a deep breath.
3. Inhale and bring your elbows together. Exhale, cross your arms and swing them out to the side.
4. Cross and swing them out again. Bend forward, repeat and cross arms over upper legs.
5. Swing out again, in front of ankles. Bend knees, turn palms forward, scoop up energy, stand, and pour that energy all over your body. Make figure 8s (big, small) all over your body (front, back, sides) with your hands.

The Zip-up

Boosts confidence, clears your thoughts, and protects you from negative energies that may be around you.

1. Place your hand at the bottom end of the Central meridian at your pubic bone.
2. Take a deep breath in as you move your hands, slowly and deliberately, straight up the centre of your body to your lower lip.
3. Continue upward, bringing your hands past your lips and exuberantly raising them into the sky. Circle your arms back to your pelvis.
4. Repeat three times. On the final time, lock it in with the motion of a key and place that key in a safe place!
5. Zip-up this meridian as often as you like. You can repeat affirmations as you zip-up for a more powerful effect.
6. Remember to zip-up your back, too. Trace from tailbone up the spine, over the head and to the upper lip, before locking it in.

The Hook-up

Gets Radiant Circuits moving, strengthens auric field, and leaves you feeling whole again. Calms and helps you feel connected.

1. Place the middle finger of one hand on the “third eye” (between the eyebrows above the bridge of the nose) and the middle finger of the other hand in the navel.
2. Gently press each finger into the skin and pull it upwards. Hold for twelve to thirty seconds.
3. You can hold it longer if you like.
4. Often you will experience a deep sigh and/or yawn or feel a shift in your energy. This shows your energies have hooked up.

Through years of practice we have designed this “Five-Minute Daily Energy Routine” that combines the most potent techniques we know that are able to help the greatest number of people stimulate each of the vital energy systems of the body and bring them into harmony and balance.
