

**Anthony Chalker – Managing Director**

Anthony Chalker is a Managing Director in Protiviti’s Internal Audit and Financial Advisory practice. He brings extensive experience leading enterprise risk management, internal audit, and governance initiatives for global organizations across a range of industries.

Anthony specializes in helping executive leadership teams design and implement scalable risk management frameworks that align with strategic priorities. His experience includes advising organizations on ERM program development, risk assessments, and the integration of risk considerations into business decision-making processes.

He has led large-scale transformation efforts focused on strengthening governance, enhancing risk transparency, and improving organizational resilience. Anthony is known for his ability to translate complex risk concepts into practical, actionable insights that drive measurable business value.
