

# The Atlanta Conference

## September 15, 2023

### Track Summary

1:30-2:30 PM EST

#### **AI is coming ... is your audit function ready?**

Hear from EY on how recent advances in AI, including Generative AI tools like ChatGPT, will create new demands and opportunities for the audit professional. During this session, we will be discussing both offensive strategies around how AI can be deployed in supporting the execution of audits as well as defensive strategies for audit professionals to gain better control, visibility, and trust in AI-driven solutions as they expand across the enterprise.

**Speakers:** *Jimmy Marquis and Shresh Sharma*

### Speaker info

Jimmy Marquis, Senior Manager, EY Technology Consulting

Jimmy is a Senior Manager in EY's Technology Consulting practice specializing in AI-enabled automation. Jimmy started his career in Risk and went on to help build out EY's digital consulting and intelligent automation practice. Currently, Jimmy help's organizations design and implement automation and AI strategies and technologies across enterprise value chains.
