Title: Evolving Enterprise Risk Management: What Internal Auditors Need to Know Now

Description:

Protiviti invites you to an engaging panel discussion focused on the latest trends shaping Enterprise Risk Management (ERM) and their implications for internal audit functions. As organizations navigate a complex risk environment—marked by digital disruption, regulatory change, and heightened stakeholder expectations—internal auditors are uniquely positioned to provide strategic insight and assurance.

This session will explore how ERM is evolving and what it means for internal audit, including:

- Integrating ERM into audit planning and risk assessments
- Addressing emerging risks
- Strengthening collaboration between risk management and internal audit
- Elevating the role of internal audit in enterprise resilience and strategy

Whether you're refining your ERM approach or seeking to align more closely with enterprise priorities, this panel will offer practical guidance and forward-looking perspectives to help internal auditors drive value in today's dynamic risk landscape.
