

## From Assurance to Advantage

### *Building the Future Ready Internal Audit Team*

*Speaker: Tom O'Reilly*

- The process IA teams are using to advance their AI adoption journey (and to provide solutions to the two common pain points in auditors way from adopting AI).
- The transition from Assurance to Advisory work - including a portfolio of advisory products and services IA can provide to their org, and a maturity framework to start advisory work.
- What IA needs to do to accomplish points 1 and 2 above - be great at the basics. We can no longer show up to work. we have to change, or we will be replaced.
