

State of the Profession: Building Trust in the Age of AI Acceleration

Join IIA President and CEO Anthony Pugliese as he presents “State of the Profession: Building Trust in the Age of AI Acceleration.”

In this data-driven session, Anthony will unpack key findings from the latest IIA and Internal Audit Foundation research, with a focus on AI’s effect on governance and trust. Attendees will learn how The IIA’s practical frameworks and tools help internal audit professionals assess these risks and design governance that keeps pace with innovation.

In this session, participants will:

- Gain invaluable insights into the current state and direction of the profession, including key trends and shifts within internal audit functions.
- Assess their functions’ priorities and performance within the wider profession.
- Identify opportunities to strengthen and optimize audit strategy and impact.
