So no confirmation on the email, no one will answer phone, text or email. Joe had said if I wanted something changed to let him know well he hasn't answered my calls, text or voicemails, as per Toni email I had to tomorrow to pick my dates and sign contracts yet I sent definitely needed questions to be answered before I can sign or pick, sent that email. To them all no response! Yesterday I called the arena 10 times and 9 times the phone was picked up then hung up! Finally call 10 coach answered and Toni refused to talk to me! Coach said Kelly is out sick, and Toni has no answers! Coach asked could he help and I explained my problem and he said that's all Kelly questions call back today! I told him I had yet another eye procedure this morning and didn't know what time I'll be free but to leave Kelly a message about my deadline concern!

We've used that form for years ... primarily with rodeos and ticketed events. No huge changes.

They list what they are going to/want to sell We approve and it's done. No big deal. You are making it a disaster. It clearly states, if you try to sell something you didn't list and get approved for, then we'll tell you to cease selling it.

I have never seen that form before kelly ! N was not told you were doing concession for the pearl until 2 weeks ago after I hustled food venders n they have been losing their ass at the regular shows n looking forward to the pearl then I go back on my word n they can't even sell drinks ! I mean come on ! I beg yawl every week to set up n you can't now you can and as far as Disaster I mean ITEMS SUCH AS..... and other things ! I mean if I was s vender I would be worried if I make cupcakes that could compare to candy or nachos to chips or onion rings to fries you making it difficult not me I'm Just saying !! This is wide open n at any time they can be asked to nit sell something they wip up . That lil poor corn man will put com on anything

I am working on this schedule n I would like my march date back , I've had it for over 10 years until last year after I had the date again n it was on my schedule you asked me for it back because you needed extra time for vintage market days. So now obviously you don't need it anymore since you gave it to Estee but it don't matter who you gave it to it should have been offered back to me. But after I had been trying to get to meet with you for months and I was put off for many reasons time after time then I see a flyer with my date on it n I'm not only out any march dates I'm also out April now! I'm Having a hard time with this schedule I got from toni last week n need march and April back somehow .

8/28/2023 5:22:42 PM (Delivered 8/28/2023 5:22:43 PM | Read 8/28/2023 5:22:52 PM)

You are not getting that date. I never took that date because of VMD. You are making things up.

I would have been able to talk with you a couple of weeks ago but opted against doing so after you became insistent with Toni Jean about dates not being correct. We are not in the business of arguing about dates. We didn't hold any dates from you, if anything, you've put dates from us on hold "in case" you needed them. Your lack of dates as a result of what Kiln is doing is nothing I can fix.

You have more dates at the Florida Parishes Arena than ANY other show producer of ANY kind of show or event.

We actually have lost money of most of the shows that you've put on in the last couple years, because our rental fee doesn't cover tractor usage, fuel, lights, cleanup, electricity, etc BUT we continue to work with you in good faith.

You were given mirrored dates from last year. There is no skipping a year and offering you something again.

My bosses (Joe and Robby) have been kept in the loop by me regarding all of this. Our staff keeps things in order and we have our official records.

If you can't live with your dates that are mirrored, then you'll have to find another venue to make up the dates that don't fit from what we've presented. We are pleased to keep the mirrored dates for you and continue to service your shows.

We've known each other for too long and worked with you for years, for me and our crew to continuously be accused of lying, giving your dates away and "sabotaging" (your word) your events.

If you want a meeting to discuss this in person, it'll be put together and it'll consist of myself, Toni Jean, Coach Alvin and Joe Thomas, our CAO.

I'll reiterate again, that March date was not used last year by you and IT was not taken by me or my staff. Estee asked for an open date that was not used, hence that is the only date she was given, therefore she'll have that weekend. It wouldn't have mattered if it was her, a roping, a circus, a monster truck show or whatever ... it was open and she was offered it.

If you want a meeting for us to listen, I'll get Toni Jean and Joe's secretary to set it up, but rest assured that date is not up for negotiation.

Toni Jean is at the Arena still at an event. She's gonna send you an e-mail with the complete list broken into 3rds.

January- April
May- August
September- December

Please respond with a confirmation e-mail for our and your files.

She'll prepare an invoice for each of the three segments.

First 4 months will be 6 contracts/3 weekends . \$70 deposit per contract totaling \$420

We'll then calculate the next four month clump (May- August) and collect deposit before the end of April for those months. Then we'll do it again for last 4 months. That'll help with the cash flow.

So to start and cover things to start ... \$420

Tanya gave the March date up because it was on top of Kinder's big run. The pbr came in and used that date so technically it is pbr's date to mirror. It doesn't appear for 2024 that the pbr will be going to New Orleans so they gave it up making it a free date which Estee took. So the date was pbr's not Tanya's.

You know it probably would look better for the arena if you let her finish this year which is 2 weekends left at the arena and in the mean time have legal send her a letter saying her 2025 dates would not be renewed and whatever else. Being she already has contracted dates scheduled and she is a sue happy person you may want to let her finish this year.

And if she wants ice then SHE needs to get it. Why are the boys doing stuff for her? That needs to stop. She's going to put someone in her spot as the nbha person but still do the shows and you will still have to deal with her if you allow nbha shows. You should ban... So Beckie told Tanya that she had payroll records in total not individual timesheets of the people she requested bc she wasn't specific on the request. Tanya canceled her appointment with us on Monday and sent a request for individual timesheets and then started blowing up my phone. I missed her call so I tried to call her back twice. She didn't answer. I was on the phone with the auditors about something unrelated and she started calling me. She would call and then hang up and call backs repeatedly!

Jill Desouge (+19859749245)

Tanya gave the March date up because it was on top of Kinder's big run. The pbr came in and used that date so technically it is pbr's date to mirror. It doesn't appear for 2024 that the pbr will be going to New Orleans so they gave it up making it a free date which Estee took. So the date was pbr's not Tanya's.

Brad is in a Jury trial today. I'm going to email him about her clause to be able to kick people out the arena and her renting the arena.

I'm also going to ask him when does it become harassment/abuse to the employees when dealing with a renter.

You know it probably would look better for the arena if you let her finish this year which is 2 weekends left at the arena and in the mean time have legal send her a letter saying her 2025 dates would not be renewed and whatever else. Being she already has contracted dates scheduled and she is a sue happy person you may want to let her finish this year.

I don't know if this was y'all's idea of a joke or what or revenge but NEVER AGAIN WILL I ATTEND AN EVENT AT THE FPA if there is this groups car show going on. This was the biggest cluster I have ever seen. Plus the boom boom boom of the base all day long. I need a nerve pill !! Revving engine and squealing tires do not mix with horses. And they had NO respect for us trying to get in or out. Would not move out the road. Bobby had to pull around on the shoulder. The driveway from 61 to the arena was cruised all day long. It was horrible. Oldies but goodies car show would be fine but not the HOOD.

9/21/2024 7:01:15 PM (Delivered 9/21/2024 7:01:41 PM)

well.... it wasn't presented to us as what took place what was described was what we used to see at the mall or a shopping center.
Cluster is an understatement from what I've been told
It ll not happen again for sure At least not simultaneously with another event.
I understand the frustration. There was Amite PD hired and there. I personally came to Amite this morning and talked to the chief on the phone.

I am working on this schedule n I would like my march date back . I've had it for over 10 years until last year after I had the date again n it was on my schedule you asked me for it back because you needed extra time for vintage market days. So now obviously you don't need it anymore since you gave it to Estee but it don't matter who you gave it to it should have been offered back to me. But after I had been trying to get to meet with you for months and I was put off for many reasons time after time then I see a flyer with my date on it n I'm not only out any march dates I'm also out April now! I'm Having a hard time with this schedule I got from Toni last week n need march and April back somehow .

8/28/2023 5:23:47 PM

This is what I just got from Tanya

8/28/2023 5:23:56 PM

8/28/2023 5:24:07 PM

The following was my response.

8/28/2023 5:24:28 PM

You are not getting that date. I never took that date because of VMD. You are making things up.

I would have been able to talk with you a couple of weeks ago but opted against doing so after you became insistent with Toni Jean about dates not being correct. We are not in the business of arguing about dates. We didn't hold any dates from you, if anything, you've put dates from us on hold "in case" you needed them. Your lack of dates as a result of what Kiln is doing is nothing I can fix.

You have more dates at the Florida Parishes Arena than ANY other show producer of ANY kind of show or event.

We actually have lost money of most of the shows that you've put on in the last couple years, because our rental fee doesn't cover tractor usage, fuel, lights, cleanup, electricity, etc ... BUT we continue to work with you in good faith.

You were given mirrored dates from last year. There is no skipping a year and offering you something again.

My bosses (Joe and Robby) have been kept in the loop by me regarding all of this. Our staff keeps things in order and we have our official records.

If you can't live with your dates that are mirrored, then you'll have to find another venue to make up the dates that don't fit from what we've presented. We are pleased to keep the mirrored dates for you and continue to service your shows.

We've known each other for too long and worked with you for years, for me and our crew to continuously be accused of lying, giving your dates away and "sabotaging" (your word) your events.

If you want a meeting to discuss this in person, it'll be put together and it'll consist of myself, Toni Jean, Coach Alvin and Joe Thomas, our CAO.

I'll reiterate again, that March date was not used last year by you and IT was not taken by me or my staff. Estee asked for an open date that was not used, hence that is the only date she was given, therefore she'll have that weekend. It wouldn't have mattered if it was her, a roping, a circus, a monster truck show or whatever ... it was open and she was offered it.

If you want a meeting for us to listen, I'll get Toni Jean and Joe's secretary to set it up, but rest assured that date is not up for negotiation.

A few people sent me that and said nothing was wrong with the Arena until Tanya's tractor driver fucked it up. People ran Thursday night said it was ok. One of the people that slipped today was Dustin Angelle and he sent me the screenshots and people's comments and said it wasn't our issue. It was Tanya's tractor driver issue BUT she'll not take the blame.

She is absolutely crazy

Jill Desouge (+19859749245)

That date must have been open and she asked for it last minute to try to hurt Estee's show but then decided not to have it. Cheyenne thought she or Marcus were actually sick that weekend.

Tanya asked for the date last minute to try to hurt Estee but then Shaylyn did a last minute big money run in Mississippi and Tanya couldn't compete with those 2 runs. There was a big fight on Facebook about booking on top of others but it's been deleted. Tanya bashed Shaylyn even though Tanya was booking on to of Estee.

So no confirmation on the email , no one will answer phone text or email . Joe had said if I wanted something changed to let him know well he hasn't answered my calls text or voicemails , as per toni email I had to tomorrow to pick my dates n sign contracts yet I sent definitely needed questions to be answered before I can sign or pick, sent that email

To them all' no response! Yesterday I called the arena 10 times and 9 times the phone was picked up then hung up ! Finally call 10 coach answered n toni refused to talk to me ! Coach said kelly is out sick , n toni has no answers ! Coach asked could he help n I explained my problem n he said that's all kelly questions call back today ! I told him I had yet another eye procedure this morning n didn't know what time I'll be free but to leave kelly a message about my deadline concern!

The crazy bitch made the post yesterday...my phone was blowing up with screen shots. 🤔 Nobody is surprised though. She tried to make TPG look like the bad guys of course. Her shows are more in Kim,MS and at Covington Fairgrounds. St. Tammany parish has kicked her out in the past so it's just a matter of time and they'll do it again. Also, she has to do all the work there...set up, ground prepping, EVERYTHING!! 🤔🤔🤔

It also sounds like the unappreciative barrel racers prefer to rent hourly instead of having \$5.00 ride days 🤔 I can remember the days when they bitched because the arena was booked hourly and not times were available. 🤔

Can you pass this along please n confirm .. I have a girl coming in from Oklahoma this afternoon about 3-4 o'clock she should get there depending on traffic she will be staying Thursday night(tonight) and Friday night . She needs 6 stalls and will prob drop her trailer in the trailer parking lot she's staying in Hammond at an air bnb. She needs 3 shavings in each stall 18 total. I told her stalls 45-50. I would have yawl open n drop off bags of shavings. I will collect from her on Friday when I get there. I'm

Thinking she may hit traffic in baton rouge possibly so can they do that n dummy lock the gate if Shez not there by the time they leave. They need to turn on the lights by that stall too , thks n let me know if it's all set up.

promote the town heavily & have always I bring 1,000's of people into that town a year! Rent 100's of stalls & RV's plus manage them at our shows, not counting all the Vendor fees too! Whether the Director likes it or not 2 other Paying Tenants & Producers were affected and so was the entire town of Amiga! That type of event should have not been held during an equine event, especially mine and if it must be, certain areas should be designated and when trouble came HE NEEDED TO BE THERE! The guy running the car show had no idea how many people would come just as I had no idea how many I would have. I went to find him and he didn't have a clue but said he would direct from the arena gate to keep them out of our area. That lasted about 30 minutes! Large events happen at that facility all the time without a problem when it is properly staffed! So just for "shits n giggles" the director blocks me but that ok 200 others friended me today to see this trash too but for now my wall is full ma clear some out soon! Well, while I'm on a role, here's a funny for the weekend, I supply ice chest full of water / gatorade / etc at all my shows during the summer for ALL WORKERS including the FPA boys, even contestants get drinks out of there, its no problem. They, the arena boys, know they go get me 2 bags of ice, (out of the concession stand ice machine that 5 gallon buckets of ice get dumped because the machine is overfilled most of the time), that I supply to bags 2 to them every time I get there and ice down drinks for the weekend. Well Saturday the boys come back with empty bags and say TONI JEAN SAID to tell you, this is how its going to work from now on, you have to pay \$2 a bag, (a tiny bag too) NO MORE FREE ICE LMAO, so wait I spend \$100 on drinks every weekend free for my workers & arena personal at anytime, and now I have to pay to ice them down?! WOW! What wonderful customer service! So yes, let the truth be known, I DID say here's \$4 give it to that Bitch & be sure to tell her to add it to the rest of the cash I have given her for the last 10-20 years! That's when all the yelling them to load & unload the car show cars in our area began! I hope this all gets worked out but if it don't, it wasn't ment to be! all. I look forward to working with [Laurie Taylor](#) in 2025 with all his new ideas and updates but may not come soon enough, I will not be torched till the end of 2024 and hope to get that all worked out.

[Diana Parlane Corleyn](#) my 1st stop was to call the 2025 arena director that I have been assigned to because the present arena director & his staff were so disrespectful to me in a meeting months ago. This was not his event so he could not make suggestions to the present director but its obvious he don't take suggestions since "he knows everything". He was at the facility when it first started. I was told to go tell him my problem and try to work it out. I went immediately & was told he had left the facility & did not want to hear my SHIT. The office manager stood up and aggressively pointed at the door & said GET OUT OF MY OFFICE NOW. I did and dialed 911 and made the report for an officer needed, I was transferred to the Amite PD and, they had already gotten several calls. They said only 1 detail was hired by the arena director and it was up to the facility to have crowd control! We were left with a manager who refused to deal with me and kept telling me to call the new director. He could not do anything with this event & we got stuck in the crossfire of parish officials! No show producer should be left in that situation! I would shut the arena gate and they would open it back up till the crowd got out of control & the P.D said we clearing them all out which again we got stuck in the mess with contestants coming in to run and contestants trying to get out! I myself was told by arena staff that I need to hurry up & get done so I could leave before

hurry up & get done so I could leave before dark. Arena management actually wrecked the parish gate running back & forth disrespecting our wishes for privacy, to open my gate she hit a car show contestant trailer and that came real close to a big fight that would have been a slaughter of innocent people! SMH is all I could do. The entire FPA Arena upper staff needs to be FIRED, they were aware of the situation and the Director stayed away leaving the office manager in charge with no authority or know how! Instructing 2 young employees to direct traffic & stay that were scared just being there! This is not the 1st major screw-up that has cost the Parish money! They mess up and they just go up on our rental to cover it or continue to do things like this, making remarks for us to go to Covington or Ikin and laugh about it! Ticketed events and open air events like there was along side of us this weekend is a big money maker and no staff needed for the arena so it now TRUMPS the barrel races & associations trying to recognize our members hard work & to buy year end awards plus help set goals for our kids to work toward which is what that facility was originally aimed at..... I will say 1 thing with the amount of alcohol & drugs being mixed with the 1,000's of steroided out, pumped up, 1/2 naked, hot & confused people squeezed in arm to arm, we are all lucky they had all that weed available & were being allowed to use it accordingly kinda like Ima Call it the Hip Hop Woodstock if not we would have needed tear gas & a

We all need to say Thank You to Andy Currier & Lane Tailion for the hours they spent this week listening to me & several others about the easily, solved & I'm going to "call past" issues @ FPA because I feel so confident they sincerely heard my cry, felt my defeat and my final loss of hope for this awesome facility that I have watched grow, promoted and loved for all it's years. They agree with my #1 issue, that this facility built for equine & agricultural events should be available, maintained, managed & prepared consistently for equine/agricultural with safety in mind 1st, for all show producers, contestants, animals & spectators! We agreed on most and agreed to disagree on a few and by Wednesday Andy had a motor grader in the arena that pulled about 18 inches of built-up sand off the bleacher side wall back where it belonged, mixed it with all that clay to be able to absorb the bowl of water we had to allow the ground to have some texture that could be moved around and hold up for a barrel race instead of fill up as you ran more & more horses! Then they leveled it perfectly! Lane worked on the PA system and made it much better than it's been in over a year & is also working on the funds for an awesome sound system! The ground looked great Thursday night & I expect things to get better & better, Hats off to Andy & Lane, I know I can be pretty demanding & long-winded but you listened with open ears, had great ideas, had the experience to fix the problem & we got great results!!! You are both FPA ASSETS! Thanks again, from me & all the barrel racers! Best of luck to all the barrel racers this weekend, wherever you go, be safe & have a great time! I'll be off, spending quality time this weekend with my baby girl Lou at 1 of her favorite camping spots.

Where is the arena director during all this chaos !!! What a cluster to schedule 3 large events on the same day!!! Management should have been available! Ripple say in lines for hours to get into the barrel race n hours to get out ! What a shame what was donated land n started out supposed to be a 4H and equine facility that grants make huge contributions to has now become a haunted house experience for my kids today and mothers packing guns with all the wild things going on that even the police could not control ! One drtstl poor cop tried his best all day till back up was finally called . What a shame is all i can say! im am so disappointed that \$\$\$ controls peoples hearts !!! No One cares about the future only today price of a ticket and the profits off them! Totally opposite types of events , that could have gotten several
People hurt on horses especially my kids! Loading and unloaded fopped up show cars in the stall loading n unloading area, washing cars in the Rv park , sound competitions in the drive way , and the filthy music we had to
Try to listen too. No facility director on site and the office manger refused to speak to
Me and threw me out of her office when i went to see how it was going to be handled that my riders could not get into the drive , and had been in line for over an hour n had not moved! I even had several leave because of the amounts of pot being smoked 5 foot from the bleachers n all around the facility !
The poor 1 detail cop was like I can't do anything about it!
Mostly i hate what my lil home away from home Amite that I've loved n supported for so many years is turning into!

FINALLY FRIDAY & NBHA LA 06 MEMBERS! HERE GOES!!
 As many of you know or have heard, I, Tanya Carpenter - High Road Productions or any subsidiary production company or event am "barred" from the Tangipahoa Parish - Florida Parishes Arena to including those located at the Tangipahoa Parish Fairgrounds as per a certified letter I received recently in November! This came after 54 High Road Productions events had already been scheduled and advertised by Tangipahoa Parish on their public website! This has left NBHA LA 06, Finally Friday, all High Road Production events & me in a very bad situation but I will continue on even if I'm starting from scratch! I hope most everyone can continue to follow our new schedule and have faith that we will pick up even more members! Thanks to Hancock County Arena for giving us the dates that they had available thru March! when the construction project is proposed to start! Be sure to Thank Mississippi for as always welcoming us with open arms! This has allowed us (NBHA LA06) to get some 2025 pointed & Louisiana State Show Qualifying shows in since all of our other facilities are booked! This is an awesome arena and pretty convenient to most of our NBHA Members! Hats off to them and MS06! Be sure to visit our Sponsors in that area, there are lots of local businesses & restaurants minutes away that have supported us for years! Hats off to St. Tammany Government & the Fairgrounds for working with me and giving us the opportunity to use that remarkable facility! We had a few kinks to work out but thanks to the St Tammany Parish government officials for coming together and giving us this last-minute meeting allowing me to slide in sideways! I feel confident that I have most worked out and we all can come out on top! I have also visited several Louisiana outdoor facilities and I'm sorry to say I don't think will work for us but I'm open to any ideas. Thank you, to the entire crew at Lamar Dixon for always being there and coming thru to get us in when needed and all your professionalism at my Large events even at the last minute! I want to Thank all of the Tangipahoa Parish businesses that have sponsored us throughout the last 20+ years. I am also very proud to see that we have helped them grow, along with us, being the largest and most prosperous Barrel Racing Associations in the area. A HUGE Thanks to all of all my help, Members, new & old, throughout the years and to those that have continued year after year supporting me through all the ups & downs! I look forward to hopefully everyone accepting somewhat of a change and following us! A big shout out to everyone that has tried to get answers or fix this mess and to all that

I hope everyone is accepting someone that of a change and following us! A big shout out to everyone that has tried to get answers or fix this mess and to all that are still so determined, You have been my backbone and my pick me up for years, but, without me being able to get any feedback from any Parish Tangipahoa Employee or Tangipahoa Government official in the last 2 1/2 months I am being forced to take this a different route! This is and has been a huge challenge and hurtful learning experience for me, but this weekend as Marcus rolled me out of bed & said OK the Pity Party is over Get your ass in gear and ready to do what you have done for 35 years, accept the challenge, think smart and continue to move forward to do what you have to do to fix this bump in the road! Make people happy! You're not DONE YET! With lots of thought & determination we are moving forward! NBHA LA 06 & Finally Friday are in great shape, better than ever! Here is a copy of what I have worked out so far as scheduling I hope it works for most of Yaw! 2024 Finally Friday & LA 06 Member awards are on order, and some have even come in. Buckles are taking me what it seems like forever but it takes lots of extra time with personal names on them! I hope to see everyone this weekend in Killn, we have a few vendors that will be there including our Awesome Food truck! Books for the early pre draw will close at 10pm sharp, tonight! It does sometimes jam up with people trying to last minute enter so remember that 10 pm it automatically close, then You can also enter the second draw at the arena or just pay your tabs in CASH at the arena at the times posted. Thanks !!!

A few people sent me that and said nothing was wrong with the Arena until Tanya's tractor driver fucked it up.

People ran Thursday night said it was ok. One of the people that slipped today was Dustin Angelle and he sent me the screenshots and people's comments and said it wasn't our issue. It was Tanya's tractor driver issue BUT she'll not take the blame.

The crazy bitch made the post yesterday...my phone was blowing up with screen shots. 😬 Nobody is surprised though. She tried to make TPG look like the bad guys of course. Her shows are more in Kin,MS and at Covington Fairgrounds. St. Tammany parish has kicked her out in the past so it's just a matter of time and they'll do it again. Also, she has to do all the work there...set up, ground prepping, EVERYTHING!! 🤪🤪🤪

It also sounds like the unappreciative barrel racers prefer to rent hourly instead of having \$5.00 ride days 🤔 I can remember the days when they bitched because the arena was booked hourly and not times were available. 🤔

Just so you know As per Howard, So the problem with the tractor was the Clevis on the rod end of the hydraulic cylinder was off, disconnected by someone. That is what Howard fixed and had to try to line back up to get the hydraulics to work. And the bearing is out in the roller of the drag. It froze up all weekend and finally would not release on the last 3 drags Saturday. Usually the only reason to unhook that is the flip the roller but don't know why it was like that. But he said he does not want to deal with the ground that dry again so if he has to he will go there on Thursday before our races to make sure it's wet or he will see if he can wet it. This should not be my responsibility to have the ground prepped and I hope I don't have to rely on doing this every weekend because most tractor drivers will not do all that... I know you agree, lol , have a great rest of your night!

Hi Joe , it's Tanya Carpenter , I realize how busy you are and I have tried to handle the issues with the arena through Kellie Wells himself to not take up your time and it's just not happening & has gotten uglier n uglier and I need to have a meeting with you with all my paperwork. He states he has kept you and Robbie up to date with all my ISSUES, but as you will see it's obvious he has not! As of today he has never met with me yet and still puts me off. I have met with Toni Jean , under his obvious direction, and she herself even had Donna present in that meeting. As he says he opted not to be at that meeting, Now Kellie says he'll meet me , you , Toni Jean , coach ... I will not be put in that situation. I hate that it has come to me possibly moving all my events because I actually love the town of Amite and I have a lot of supporters there but at this point my back is against the wall! Please let me know the soonest the 3 of us can meet , Kelly wells to be present if at all possible, if Kelly can not meet us I would like to meet with you myself as soon as possible, as these 2 associations that has built up and promoted that facility for 16-17 years are being negatively affected at a rapid rate! Thanks in advance Tanya Carpenter 504-452-9707 I am available anytime, except tomorrow morning till after lunch, my husband is having procedure done even today, all I need is about 1-2 hours to get there , if you need to squeeze in your schedule or as of now I can do today, Thursday or Friday also.

So no confirmation on the email , no one will answer phone text or email . Joe had said if I wanted something changed to let him know well he hasn't answered my calls text or voicemails , as per toni email I had to tomorrow to pick my dates n sign contracts yet I sent definitely needed questions to be answered before I can sign or pick, sent that email To them all' no response! Yesterday I called the arena 10 times and 9 times the phone was picked up then hung up I Finally call 10 coach answered n toni refused to talk to me ! Coach said kelly is out sick , n toni has no answers ! Coach asked could he help n I explained my problem n he said that's all kelly questions call back today ! I told him I had yet another eye procedure this morning n didn't know what time I'll be free but to leave kelly a message about my-deadline concern!

Well I just texted toni to hold all the deposits until kelly calls me ! I gave her \$1500 in deposits yesterday n I have decided I'm not fighting this parish anymore! I & the arena n the parish is being bashed on fb ! I'm tired of getting the blame for things out of my control ! Unbelievable! Who put Sid on my show prep ? He flooded the arena and no one would answer till lunch time Friday for me to even tell them DO NOT PUT ANY MORE WATER on the GROUND BUT HE DID ANYWAY ! I fired that smart ass years ago n I had to deal with his stupidity of wetting ground during a freaking flood then wetting it again the next day I Asked for it to get cut open and fans on high n I get there n it's drug flat keeping all that water on top , Talmadge tried n Howard was disgusted n it was almost dangerous . Just what I needed , I talk the Baton Rouge district to joining us n we sent them home with dirt in their teeth ! The pa still not fixed after 6 months of asking , ally looked like a cloud of dust ! I could go on n on all the way to no toilet paper in the bath rooms ! Coach was off sick all week !

A few people sent me that and said nothing was wrong with the Arena until Tanya's tractor driver fucked it up.

People ran Thursday night said it was ok. One of the people that slipped today was Dustin Angelle and he sent me the screenshots and people's comments and said it wasn't our issue. It was Tanya's tractor driver issue BUT she'll not take the blame.

We all need to say Thank You to Andy Currier & Lane Tallon for the hours they spent this week listening to me & several others about the easily, solved & I'm going to "call past" issues @ FPA because I feel so confident they sincerely heard my cry, felt my defeat and my final loss of hope for this awesome facility that I have watched grow, promoted and loved for all it's years. They agree with my #1 issue, that this facility built for equine & agricultural events should be available, maintained, managed & prepared consistently for equine/agricultural with safety in mind 1st, for all show producers, contestants, animals & spectators! We agreed on most and agreed to disagree on a few and by Wednesday Andy had a motor grader in the arena that pulled about 18 inches of built-up sand off the bleacher side wall back where it belonged, mixed it with all that clay to be able to absorb the bowl of water we had to allow the ground to have some texture that could be moved around and hold up for a barrel race instead of fill up as you ran more & more horses! Then they leveled it perfectly! Lane worked on the PA system and made it much better than it's been in over a year & is also working on the funds for an awesome sound system! The ground looked great Thursday night & I expect things to get better & better, Hats off to Andy & Lane, I know I can be pretty demanding & long-winded but you listened with open ears, had great ideas, had the experience to fix the problem & we got great results!!! You are both FPA ASSETS! Thanks again, from me & all the barrel racers! Best of luck to all the barrel racers this weekend, wherever you go, be safe & have a great time! I'll be off, spending quality time this weekend with my baby girl Lou at 1 of her favorite camping spots.

👍👍 Scarlet Brantley and 14 others
