

2022 CLIMATE TECH PRE-ACCELERATOR

A part-time virtual program for advancing technologies and ideas into businesses.

INCLUDING INSTRUCTION BY:

The Climate Tech Pre-Accelerator is an opportunity for faculty, students and researchers at any Maryland-based institution or federal laboratory to explore the potential markets for their inventions. Participants are matched with an industry expert to explore applications for the technology and to determine whether the technology should move forward towards commercialization.

Visit <https://mdeia.org/climate-pre-accelerator> to learn more information about the program and how you can apply.

SPONSORED BY: **THE BUTZ FOUNDATION**

SUPPORTED BY:

Maryland Technology Enterprise Institute

Maryland Energy Innovation Institute

Ralph O'Connor Sustainable Energy Initiative

We match you with an industry expert to create your business model canvas

Understand how your technology must evolve to provide value to customers

Program runs part-time from May 31 to July 26, 2022
