

ARE YOU COVERED?

Elijah S. Smith
Agent/Consultant

Even if you don't own a home, you probably own a great deal more than you think. Consider all of your furniture, electronics, clothing, appliances, and jewelry, as well as any art, books, or musical instruments you own.

Beyond your personal property, what if you're found liable for injuries sustained by visitors in your home as a result of **negligence**?

That's where **Farmers Renters Insurance** comes in.

Renters insurance covers your personal property, and even covers you from liability claims while you're renting. Also, if your rented home ever needs serious repairs, and you're unable to live there, it also covers the reasonable and necessary increase in living expenses (housing, food, etc.) you may incur.

Renters Insurance is affordable.

For about the price of a movie and popcorn once a month (just pocket change each day), you can purchase coverage for your personal belongings.
