

**HOSTED BY ANAHEIM POLICE DEPARTMENT**

Police and fire dispatchers handle various types of critical incidents. Natural disasters, criminal, and non-criminal incidents of a high priority can have dramatic impacts on dispatch operations.

This class examines different critical incidents and the working partnerships between dispatchers and field-responders to best optimize response and handling of these events.

What sets us apart is our ability to bridge the gap between the field and dispatch.

**DISPATCHERS ROLE IN**
