

STRATEGIC AND EXPERT LEADERSHIP TO HELP NAVIGATE THE TURBULENT SEAS OF CYBERSECURITY ... WITHOUT THE FULLTIME COST!

WHO WE ARE:

- We empower forward thinking businesses with executive-level strategic security expertise - when they need it, how they need it, and with only as much as they need.
- We deliver clarity, control, resilience, and confidence to business owners, their leaders, their Boards, and their Executive Leadership Teams.
- Our CEO, Wade Richmond, is a seasoned and proven cybersecurity executive with 40+ years of experience across multiple industry sectors (retail, financial, manufacturing, biomedical, and professional services) and many major organizations (CVS, Citizens Financial, GTECH, Ahold USA, BJ's Wholesale Clubs, etc.)
- This expansive cross-industry work history has built expertise with multiple security frameworks and regulatory compliance standards

HOW WE HELP:

We work with CEO's and Exec Leadership teams in small to mid-sized businesses who are ready to:

- gain clarity and control over their security risks
- minimize impacts from the inevitable security incidents
- position a security program that differentiates them from their competitors
- ensure regulatory and compliance requirements are consistently satisfied

And, we are well suited to assist all industries, as our risk management skills apply across all verticals.

WHAT WE DO:

AS YOUR FRACTIONAL vCISO, WE PROVIDE ...

- Security Assessments and Roadmapping
 - understand what your current risk posture is
 - determine what the desired "to be" posture is
 - lay out a clear way forward to achieve those goals
- Consultative CISO Services
 - assist with the design, construction, and management of your security program
 - utilizes a hands-on approach, transitioning from advising to designing and building
- Interim CISO Services
 - fill CISO-level voids on an interim basis
 - assist with search, interview, and hire of your next full-time CISO.
- CISO and/or Security Staff Mentoring
 - provide mentoring services to existing team members to elevate capability and maturity
 - allows for both strategic oversight and long-term capability building
 - strengthens your current security posture, while developing the next generation of in-house leadership

WHY CHOOSE CISO ToGo?

- ✓ SENIOR-LEVEL EXPERTISE without the full-time salary

CLIENT TESTIMONIAL:

"When our business divested from a large multinational to become a standalone company, there was significant pressure from our Board of Directors and Executive leadership to ensure our Cyber Security posture remained strong. CISO ToGo's depth of experience, rapid response, and customer focused delivery were crucial in guiding our Cyber Security efforts. **In partnership with CISO ToGo, we developed and established a brand new Global Cyber Security organization in under 6 months;** inclusive of all governance frameworks, maturity evaluations, policies and procedures, 36-month roadmap, technology stack, security operations, and team construct. **CISO ToGo was the critical 'X factor' that enabled our successful delivery.**"
