

Attachment & Complex Trauma Training for Parents

Complex Trauma can occur in children that are adopted, or have been exposed to traumatic events in childhood.

If meltdowns, tantrums, chaos, lying, stealing, property damage are part of your family life; you are likely parenting a child with Complex Trauma.

Amazing Grace Advocacy has partnered with Expert Trauma Specialist Dawn Precour, to bring you a Virtual Parent Training for Attachment and Complex Trauma on:

Saturday, June 5th from 8:30-11:30am.

We will be looking at attachment and complex trauma; how it affects behavior and the developing brain. You will be taught interventions/strategies that are realistic and work!

This training lays the foundation of why we need a different parenting approach and why traditional parenting/behavior modifications (or even therapy) doesn't work with children of complex trauma.

This training is an appropriate starting place for everyone!

The cost of this training is \$25 per family

Dawn Precour, MSW, is a specialist in working with adopted and foster children with complex trauma and the impact on their development, behaviors and attachment. Dawn has over 25 years of experience working with these children and those living and working with them. She has helped families and agencies from all over the world.
