

Scriptural Science 101 - Part 1

(Pastor Vaughn, fhtv.tv #3157)

Why So Many Translations?

Those who study the Bible
must be cautious because
there is no translation
that exists without flaws.

Man's interpretations
have led many astray
away from foundational truths
being restored in our day.

With every translation man has tried
his best to understand
what Yahweh is saying to us
but they do not know His plan.

With so many translations,
how do we know what's true?
Go back to the original
is what we need to do.

Truth is not found with the natural mind.
The Bible is a spiritual book
written by the Holy Spirit
and requires a closer look.

Patterns repeat themselves
over and over without fail.
Compare scripture with scripture,
noting every detail.

These patterns become laws.
Look for them like a detective.
There is a central theme
that never will be defective.

So let's become "workmen"
that need not walk in shame,
rightly dividing the word of truth
for the glory of His Name!
