

TOMATOES

Henderson's Pink Ponderosa Tomato

87 days. Huge size, some over 2 lbs., a meaty pink-red beefsteak introduced by Peter Henderson & Co. in 1891, and the most famous of their varieties. Their 1903 catalog said "Quality Beyond Praise, Rich and meaty-sliced. Thick and delicious canned." Still popular with gardeners.

Costoluto Genovese Tomato

The fluted, old Italian favorite that has been around since the early 19th century. Fruit are rather flattened and quite attractive with their deep ribbing. This variety is a standard in Italy for both fresh eating and preserving; known for its intensely flavorful, deep red flesh. This variety has also become very popular with chefs in this country.

Indigo Apple Tomato

75 days. Immature fruits show deep purple, almost black coloration, which is caused by high anthocyanin (an anti-oxidant). The 2- to 4-ounce, cherry-type fruit turn red when ripe, have a good, complex yet sweet tomato flavor. A descendant of the famed OSU Blue Fruit tomato. The pendant clusters of immature black fruit present a striking appearance in the garden! Resists sun-scald and cracking, lasting long into cool autumn weather when others have quit. Shows disease tolerance and great shelf-life. A classic is born!

True Black Brandywine

80-90 days. Potato leaf. This fine variety was sent to us by our friend, famed seed collector and food writer, William Woys Weaver, of Pennsylvania. It was passed down to him from his Quaker grandfather's collection dating back to the 1920s.

Barry's Crazy Cherry Tomato

75 days. Pale yellow cherries are delicious, and grow on some of the largest clusters known! Sweet fruits are oval, each with a tiny "beak" at the blossom end. Flavor is good, the fruits keep well, and the sight of the 40- to 60-fruit trusses on the large plants is positively mind-boggling

Sunrise Bumblebee Cherry

70 days. Chefs love the luminous swirls of reds and oranges, inside the fruits and out! Everyone loves the sweet, fruity taste, too! Oblong little fruits weigh barely an ounce, sometimes show a pronounced beak at the blossom end.

Chadwick Red Cherry 80 days. Delicious, sweet flavor makes this 1-ounce cherry popular with home gardeners. Large vines set huge yields and are disease resistant. Developed by the late horticultural expert Alan Chadwick.

Amish Paste (Roma) 80 days. Many seed savers believe this is the ultimate paste tomato. Giant, blocky, Roma type tomatoes have delicious red flesh that is perfect for paste and canning. It has world-class flavor and comes from an Amish community in Wisconsin.

Jersey Devil 90 days. Pendant, pointed, pepper-like fruits are slow to set on but yield very heavily. 5-6- inch, ruby-red, paste-type fruits are very meaty and have but few seeds. Incredible flavor. This variety was another pillar of the New Jersey tomato industry, and is an ancestor to "Jersey Giant."

Blue Berries 75 days. Here's a small cherry variety from Brad Gates, Wild Boar Farms. Very dark purple color, which means it's super-rich in anthocyanins. Unripe, the fruits are a glowing amethyst purple. At maturity they turn deep red where the fruit was shaded; the areas that received intense sunshine are a purple so deep it's almost black! The flavor is intensely fruity and sugar-sweet! Plants are very productive, yielding all season in elongated clusters that look so beautiful.via Seed Savers in 1995.

Ivory Pear 75 days. Medium to small white pear. Very prolific. Pretty much crack resistant and they last longer than any other cherry/pear type tomato.

Yellow Pear Tomato

78 days. Very sweet, 1 1/2" yellow, pear-shaped fruit have a mild flavor, and are great for fresh eating or for making tomato preserves. Very productive plants are easy to grow. One of the first tomatoes I grew as a child.

Sungold Select II

This is a selection from the regular Sungold tomato, sent to us by Reinhard Kraft of Germany. This is one of the tastiest orange cherry tomatoes out there! This little cherry was the favorite of many of our staff last summer; we love the sweet tangy taste! This variety is not completely stable and a few plants still produced red fruit.

White Currant A favorite variety in our own garden! The fruits are tiny, barely an inch across, and creamy white, with skins having a pale yellow tint. One of the sweetest tomatoes we have ever grown, with superb flavor. The fruits grow in clusters, and the yield is huge! We have more than we can pick, right up to frost. Large vining plants. A perfect cherry for home and market gardeners. A wild type.

Riesentraube Tomato 75-85 days. This old German heirloom was offered in Philadelphia by the mid-1800s. The sweet, red 1-oz fruit grow in large clusters; the name means “Giant Bunch of Grapes” in German. This is likely the most popular small tomato with seed collectors, as many favor the rich, full tomato flavor that is missing in today’s cherry types. Large plants produce massive yields.

Black Cherry Tomato 75 days. Beautiful black cherries look like large, dusky purple-brown grapes; they have that rich flavor that makes black tomatoes famous. Large vines yield very well; very unique and delicious.

Bonny Best Tomato The famous old canning tomato that was selected out of Chalk’s Early Jewel by one George W. Middleton and introduced in 1908 by Walter P. Stokes seed house. It became one of the most respected canning varieties in America in the first half of the twentieth century. Medium-sized fruits are round, red, meaty and loaded with flavor. A good producer that makes a fine slicer too. Becoming hard to find due to modern, flavorless hybrids.

Napa Chardonnay Blush Tomato

65-70 days. Yellow mutation from Napa Rosé Blush, Brad says this one has “a super-amazing flavor,” with many who tasted it for the first time proclaiming it the very best cherry type they had ever tasted. Also, this variety is very easy to grow, and does especially well in containers.

Golden King of Siberia Tomato

85-95 days. This tomato is one of the real favorites here. Big, lemon-yellow fruit are a delightful heart shape. The flesh is smooth, creamy and has a nicely balanced sweet taste. I always find myself “snacking” on these one-pound beauties. Plants are very productive and seem to have some disease resistance. Thanks to Russia for this really great yellow type.

Beefsteak Tomato

80-96 days. Cook's Garden Favorite. Large, ribbed fruits, 1-2 lbs. each, are produced on indeterminate vines. Solid, meaty and juicy tomatoes, an excellent slicer.

Black Beauty Tomato

World's Darkest Tomato-- the darkest tomato we know of! A dark, meaty, very rich-fleshed tomato with extreme anthocyanin expression (same antioxidant in blueberries and blackberries). So dark that some tomatoes turn solid blue-black on the skin. Deep red flesh is among the best tasting of all tomatoes. Rich, smooth and savory with earthy tones. Hangs well on the vine and stores very well, and the flavor improves with room-temp storage. Our own Dave Kaiser tasted it at the 2015 National Heirloom Exposition and proclaimed it as the BEST tomato he had ever eaten.

Black Vernissage Tomato

Here is a lovely "black" tomato that is loaded with flavor as well as production. This 2 oz. tomato, along with its other Vernissage cousins, is sure to make a big splash in the garden as well as the kitchen. These are perfect for rich tasting sauces.

Tiger Blush Tomato

60-70 days. Stunning "Blushed" in red and gold combine with a translucent quality to give these elongated cherries serious visual appeal! The fruits, similar in size and shape to large olives, score high in taste tests. Blush was selected by eight-year-old Alex Hempel from two of his favorite tomatoes, and is an ancestor of the Bumble Bee series! Outstanding!

Pink Boar Tomato

80 days. This 4 ounce gem is pinkish-wine colored with metallic green stripes. A great producer and is a definite winner if you want a smaller, juicy, sweet tomato.

Pearly Pink Tomato

75 days. Crisp, incredibly flavorful cherry tomatoes that are bright pink, perfect for snacking. The vines produce very well, making them great for marketing. One of the prettiest tomatoes we carry. Mmmm, so good!

Chocolate Pear Tomato

70 days. Expect huge crops of “black,” pear shaped tomatoes over a very long season. Chocolate Pear has the rich tomato flavor that has made heirlooms so popular! A great variety for CSAs and market growers. Light red in color, overlaid with swirls of varying hues of green or brown. Very unusual and decidedly one of the best!

Carbon Tomato

90 days. Winner of the 2005 “Heirloom Garden Show” best-tasting tomato award. These have won taste awards coast to coast in the last few years, so we were proud to locate a small supply of seed. The fruit is smooth, large, and beautiful, being one of the darkest and prettiest of the purple types we have seen. It seems to have an extra dose of the complex flavor that makes dark tomatoes famous.

Pink Bumble Bee

60-70 days. A stunning cherry tomato, of recent breeding from Artisan Seeds. The fruit has a bright, sweet flavor, and the color is vibrant fire-engine-red with golden orange striping. Vigorous vines yield crack resistant fruit over a very long season. Tolerates cool nighttime temps and hot days. Salad will never be the same!

Sub-Arctic Plenty

50 days. Determinate. One of the very earliest tomatoes, the compact plants produce lots of 2-oz red fruit. One of the best for cool conditions and will set fruit in lower temperatures than most. It has even been grown in the Southern Yukon. Developed by Dr. Harris, Beaverlodge Research Station, Alberta, Canada.

Dark Galaxy

A Delicious Galactic Beauty--With mottled skin resembling a scene from deep space, each fascinating fruit depicts the depth and beauty of the night sky. Dark Galaxy bears 2-8 ounce fruit that is flattened, with red and orange stripes covered in random speckles, and layered by deep blue. The vines themselves display a purple blush and grow 5-6 feet tall while producing good amounts of the stunning tomatoes that begin to ripen in about 75 days. The taste is a perfect balance of tangy-sweetness--so juicy

and refreshing! Each fruit is a unique work of art, sure to be a garden and tabletop centerpiece! Another stunning tomato from Brad Gates.

Minibel

65 days. Determinate. Bite-sized fruit is sweet and flavorful. Tiny ornamental plants reach only to about a foot in height and require no support. Covered in tasty little tomatoes. Excellent choice for containers, pots or hanging baskets; pretty enough for the patio or deck. So cute!

NAPA CHARDONNAY BLUSH

65-70 days. Yellow mutation from Napa Rosé Blush, Brad says this one has "a super-amazing flavor," with many who tasted it for the first time proclaiming it the very best cherry type they had ever tasted. Also, this variety is very easy to grow and does especially well in containers.

PINK BUMBLE BEE

60-70 days. A stunning cherry tomato, of recent breeding from Artisan Seeds. The fruit has a bright, sweet flavor, and the color is vibrant fire-engine-red with golden orange striping. Vigorous vines yield crack resistant fruit over a very long season. Tolerates cool nighttime temps and hot days. Salad will never be the same!

HUNGARIAN HEART

80 days. Brilliant reddish-pink oxheart type fruit is large—frequently exceeding one pound! The fruit of this heirloom is firm and meaty like all oxheart types—great for paste, canning or fresh use. The crack-resistant fruit contains very few seeds & and shows very little tendency to develop cores—just rich tasting, solid flesh across each hefty slice! Heavy production all season long. Originated outside of Budapest, Hungary, around 1900.

CHEROKEE PURPLE

80 days. An old Cherokee Indian heirloom, pre-1890 variety; beautiful, deep, dusky purple-pink color, superb sweet flavor, and very-large-sized fruit. Try this one for real old-time tomato flavor. Our favorite dark tomato and one of our best-selling varieties.

Snowball

80 days. Parchment-white tomatoes are extra smooth and beautiful. Renowned for their sweet, citrus taste that is richer and more complex than many white types. This variety is perfect for making a delicious white sauce or for eating fresh out of hand. In 1927 Isbell's Seed Co., of Jackson, Michigan, said that this was the best white variety that they had ever grown. Some sources say it may have been introduced as early as 1850. This eight-ounce variety is a wonderful piece of American history

that is just too great to be lost. Chefs and market gardeners, take notice!

Janet's Jewel

Large, bright orange striped, beefsteak fruits - many weighing over 1 pound each! Very meaty and sweet tasting with fruity undertones. Late but worth the wait - it's a real 'jewel'.

Indeterminate

Thornburn's Terra Cotta From the outside, it resembles Elser Farm's Brown Derby. But when sliced, the beautiful pink (I think there may be beta-carotene in this one) blends with the ochre/orange and green seed gel to create tomato art. The texture is plump and smooth, while the flavor is full-bodied.

Micheal Pollen

Very unique plum/pear shaped tomato variety developed by Brad Gates at 'Wild Boar Farms' from an odd-shaped mutant of Green Zebra. It was named after writer, journalist and teacher, Michael Pollan – a man who has contributed greatly to our understanding and appreciation of plants, and by virtue of his contribution has enhanced the quality of all of our lives.

Renamed and re-branded by one of a seed companies as 'Mint Julep' in 2014, and since then offered by several seed resellers in their 2014 catalogs.

Indeterminate, regular leaf plants produce 3-4" long, pear-shaped fruit with slight pointy end that grow in loose clusters. Fruit color is green with vertical yellow stripes. Taste similar to green zebra, milder, sweeter and without the citrusy tang of Green Zebra. The odd branching of this variety makes it more difficult to tie/stake. Extremely high yields with one plant often producing as much as 5 gallons of fruit! Indeterminate, regular leaf plant. Midseason, 75 days to maturity.

Large Barred Boar

65-70 days. This regular leaf tomato grows fairly stocky and not as tall as most indeterminate varieties. Flattened beefsteak fruit is pink-brown with metallic green stripes and weighs 8-12 ounces. Very meaty pink flesh is very flavorful.

Candy Sweet Icicle

Dated to 1807. Candy Sweet Icicle. 70 days. Very pretty, very tasty and very productive. Red with yellow stripes mini roma. A real stand-out! Bright, shiny pointed fruit has top notch sweet fruity flavor.

Persuasion

Recent creation from Brad Gates (US), released in 2015. Pink-orange-purple with green and golden stripes with changing anthocyanin influences. Juicy and sweet pink beefsteak flesh with a very good taste. Indeterminate with high yields from mid-season until first frost. Strongly recommended! Tasty taste + incredible colors.

Chestnut Chocolate Mid-season (80 days for transplant) US variety. Indeterminate tomato, plant grows 180cm (70in.) tall. Slightly ribbed, dark brown, round tomatoes with a juicy, dark red flesh and an excellent taste.

Bosque Blue Bumblebee

A rare eye-catching tomato that is bright yellow, with dark blue marbled shoulders. They develop the blue-purple color as they grow, and the more sun that each tomato receives, the deeper that color becomes. Bosque Bumblebee is a small salad-type tomato, though still larger than a cherry tomato at about two inches in size, and it has a mild, almost citrusy flavor with an appealing juicy texture.

Kanner Hoell

Donated by SSE member Reverend C Frank Morrow of Minnesota who claims the seed originated in Germany and has been in his family since the early 1900's. Beautiful, red heirloom beefsteak fruits average 4 to 5" in diameter and weigh up to 1-1/2 pounds. Fruits have good flavor, are low in acid and are moderately sweet. Excellent for fresh eating and canning. Indeterminate.

Afternoon Delight

Medium to large-sized bi-color (red and yellow) beefsteak tomato with a nice purple splash of anthocyanin on the shoulders. It is an accidental cross between Big Rainbow and an unknown anthocyanin line found and developed by Brad Gates, Wild Boar Farms of Napa Valley, California, USA. Very beautiful, and also very tasty fruits. Sweet, juicy, firm and somewhat fruity flesh. Midseason, 80 days.

Atomic Fusion

A selection of the 'Brad's Atomic Grape' tomato bred by Brad gates of 'Wild Boar Farms'. Indeterminate, regular leaf plants that produces a very good yield of beautifully colored (green, red and brown), striped, elongated irregular salad-type tomato with antho shoulders and multicolored interior. Very sweet and juicy tomato with good shelf life. Midseason, about 75 days from transplant.

Carbon

Delicious, highly productive black heirloom. Resists cracking and cat-facing better than other large, black heirlooms, producing a higher proportion of marketable fruit. Blocky-round, 10-14 oz. fruit with dark olive shoulders fading into a very dark, brick red. Boasts the signature rich flavor and meaty texture of a classic black tomato. Excellent yields and fruit quality for an heirloom. Productive over a longer period than similar types. Well-balanced plant habit. Indeterminate.

Cosmos

It is hard to find examples of a more exotic-looking tomato than Cosmos. Deep indigo anthocyanin stand out over extremely unusual layered spots that give this tomato a unique and even futuristic quality. Underneath its colorful and otherworldly appearance Cosmos is a round, red variety that usually weighs in between 2-4 oz. It is noteworthy that this breed is very productive and the fruit features great hang time on the vine, as well as good post-harvest life. Accentuating its other amazing traits, Cosmos possesses a classically sweet flavor that is very balanced in its acidity. Indeterminate.

Kryptonite

The newest very rare, exotic tomato from Brad Gates. Productive plants grow fairly tall. Medium fruits with well-balanced and slightly tangy flavor are covered deep-blue and green-yellow striping.

Blue Gold

Amazing 2-3 oz. fruit, Blue and gold bright yellow tomato with tops that turn black with anthocyanin. Interior is red-yellow bi-color that is sweet and fruity. High production plant

Wine Jug

Plump pear shaped, Cabernet colored, with light spots. Sweet, rich flavor. Fruits are crack resistant and have great hang time ability.

Pineapple Pig

Large and plump, weighing up to 1 or 2 pounds, with a somewhat rounded, bumpy shape. The fruits ripen to a creamy yellow color with light green stripes or specks and a pale pink blush. The flesh is also yellow in color, often with a rosy tint or marbling, and offers a thick, meaty, and juicy texture. The flavor is mild and sweet with very low acidity and fruity undertones. Although Pineapple Pig tomato plants are late to set fruit, they are a prolific indeterminate variety that will continue to grow and produce up until a frost. The plants are tall, often reaching 5 to 7 feet high, hence staking or caging is recommended to help prevent garden sprawl and support the heavy fruits.

Indigo Rose These intriguing deep purple-black tomatoes are a gorgeous addition to farmers' market, CSA, and wholesale offerings. The 1-1/2 to 2 oz. round fruit take on remarkably dark black color where exposed to sun, while the undersides of ripe tomatoes show a rich red blush. Smooth, rosy purple interior flesh offers excellent depth of flavor, balancing pleasant acidity with a hint of sweetness. The prolific fruit grow on compact indeterminate vines and resist cracking well.

Chili Verde

Unique to the world of paste tomatoes - this green variety is a must-have for the home gardener! Developed by Tom Wagner who also bred our popular Green Zebra (pg30). Pepper shaped fruits, with very few seeds, ripen to green with gold blush and have a good strong flavor. Perfect for canning or making a truly green ketchup. Vigorous plants produce excellent yields. Indeterminate

Get Stuffed

A spectacular stuffing tomato with gorgeous golden streaked skin. This crisp fleshed and hollow variety is perfectly suited to stuffing, superb when eaten raw but also holds up beautifully when baked. Fruit averages 5-7 ounces each and is similar to a bell pepper in shape. The skin of this variety is gilded in light streaks of gold. Medium large with a strawberry-like seed cluster in the middle that is easy to scoop out. Delicious stuffed with various stuffings raw or cooked. Shaped like a bell pepper with crispy texture but great tomato flavor. Stands up well to powdery mildew.

Originally bred by incredible plant breeder Tom Wagner!

Buratino

70 days. Indeterminate, regular leaf (thin and wispy). This Russian heirloom won our hearts with its texture and perfectly balanced flavor, exactly how a tomato should taste! The Roma-shaped tomatoes are a sunset orange hue with a long-pointed nose, hence the name buratino, which is Russian for Pinocchio! We love this all-purpose sauce, slicing and snacking tomato because there are no compromises to be made — it

boasts outrageous flavor, exceptionally high yields, hardy plants and multi-purpose! The fruit is larger than a Roma, averaging 5-7 ounces with a small seed cavity and thick, meaty flesh that drips with citrusy, fruity yellow tomato taste. This variety is believed to have been introduced by the Vavilov Institute of Plant Industry in St. Petersburg, Russia.

First Snow – Variegated

74 Days. Beautiful plants with variegated leaves produce excellent quality dark purple fruits. Its no surprise that they taste so great, this was originally from a Cherokee Purple. Regular leaf, Indeterminate.

Gezahnte

80 days. Originating in Naples, Italy! Semi-hollow fruit, firm and mild-tasting; great for stuffing. All sizes up to 6 ounces, very productive, even in hot, dry conditions.

Evil Olive

Averages 75 or more days to maturity. A trifecta of marbled colors makes this one of the most gorgeous of all tomatoes. This unusual variety ripens slowly, starting out an olive green and lightening up with red streaks when ripe. Evil Olive is insanely productive, easily one of the most productive tomatoes we've ever grown. It is also one of the longest keepers. If you'd like a variety to grow as a winter keeper, Evil Olive is your pick! We love this extremely crunchy plum-sized tomato as a tomatillo type green tomato. It's amazing in salsas and salsa

verde. Super long trusses with over a dozen fruit per cluster, each weighing about 2-3 ounces!

Black from Tula

70-80 days. Savvy seed savers and heirloom connoisseurs regard this as one of the best-tasting tomatoes. This 8-12 oz slicer has smoky, complex flavor and dark chocolate colored flesh. Believed to have originated from a Ukrainian family heirloom, it is very well adapted and reliable to a wide range of conditions.

Pink Fang

This exotic looking beauty has the best taste of any paste tomato we have tried. The flavor of this big paste tomato will put a regular Roma to shame! Incredibly flavorful and so sweet! The super-long, 6-inch fruit of this paste tomato has very few seeds and thick, sweet flesh. Try making this meaty, sweet variety into paste or marinara. You won't be disappointed! Our favorite for snacking, too!

Orange Oxheart

76 days. Big 10 to 12 ounce heart shaped, meaty fruit are sweet and juicy. Well balanced flavors and attractive color, make this a perfect addition in salads, or as a delicious juicy slice on a sandwich. Vigorous indeterminate vines benefit from growing in cages. Called one of the best tasting among the Oxheart types.

Spoon

65-70 days. Micro mini fruit, just the size of a tiny pea, and said to be the world's tiniest tomato! A delightful edible ornamental, the tiny, fire engine-red fruit is arranged beautifully along super long trusses. What Spoon lacks in size, it makes up in flavor. This variety packs tons of bold classic red, tangy tomato flavor, which is another reason why it is a kid favorite! Spoon tomatoes pop in your mouth when you bite into them; they are a joy to eat and grow.

Sweetheart Cherry Sugar-sweet, crunchy and so delicious! This cherry tomato is simply packed with sweetness and a rich, berry-like flavor. It is quite crisp, and the fruit can keep long on the vine, making it extra high in sugar! Sweetheart Berry is a wildly productive little snacking tomato great for greenhouse and outdoor production. This was an outstanding tomato in our trials for flavor and yield, and the strong vines produced heavy yields of tomatoes longer than any other variety we have tried! Extra-long trusses are smothered in small red cherry-sized fruit that resists cracking. Allow the fruit to ripen on

the vine to a deep red for the very sweetest flavor, or pick earlier if you like it a bit more tangy; either way it is superb! It proved productive and flavorful even in our cool winter greenhouses, with only 42 F degrees at night. These little strawberry-shaped jewels were a staff favorite last season.

White Tomesol

80 days. An amazing heirloom that is bursting with fragrance and natural goodness that's hard to beat. One of the best tomatoes we have tasted, being both sweet and rich. The cream colored fruit is beautiful, smooth and weighs about 8 ounces each. The vines set heavy yields of this rare treasure.

Lucky Tiger

70-75 days. Elongated 2-inch fruit comes in stunning, jewel-toned shades of green and red, with hints of gold. This tomato gets top marks for flavor: tangy, sweet and complex with tropical notes and balanced acidity. Lucky Tiger has great market gardening potential. It stands out in the market display and is well suited for both greenhouse and field growing. The best snacking tomato we grow!

Purple Bumblebee

60-70 days. Slightly elongated little cherries with the most outrageous striping in lime green and bronzy-purple! Crack-resistant fruit is produced all season long on plants that are unfazed by temperature extremes. The flavor is complex but sweet. Excellent holding quality makes this newer type outstanding for market. The bar for quality just got higher! From Artisan Seeds.

Duggin White

This heirloom was sent to Dorothy Beiswenger by Lloyd Duggin. First offered in the Seed Savers 1996 Yearbook by Neil Lockhart of Oblong, Illinois, who got the seeds from Dorothy Beiswenger. Indeterminate, regular leaf plant produces abundant yields of 6-10 oz., white beefsteak tomatoes with mild, fruity-sweet flavors.

Blue Boar Berries

Beautiful small cherry like tomatoes that are abundant. Deep flavor and crisp. Indeterminate heirloom. Gazillions of little berries.

Orange Accordion

80 days. Indeterminate, regular leaf. Indescribable beauty meets stellar flavor with the orange accordion tomato. This highly ruffled, massive tomato in high voltage orange color is packed with nutrition and sweet, fruity flavor. This head-turning tomato is a must have for market gardeners and home growers alike. Its deeply lobed fruit has few seeds and juicy, meaty flesh, making it suitable for sauces and slicing. Its monstrous fruit can easily reach 20 ounces each and makes a perfect stuffing tomato, too!

Mila Orange Pear

70 days. Indeterminate. A unique and delectable treat! This highly productive Russian variety grows long trusses of tangerine-colored, large, elongated, pear-shaped tomatoes that are firm, sweet and sublime for snacking! Matures early to mid-season. Fruit averages 60-120 grams and has a perfect balance in acidity and sweetness. Ideal for market or home gardening. Makes amazing orange salsas, ketchup and sauces. A marvel of nature.

Sart Roloise

85-90 days. These gorgeous globes have the lustre and stunning color of a stained glass masterpiece. Its beauty is only outmatched by its flavor! The Sart Roloise tomato is bursting with sweet, fruity and complex flavor with just the right acidity, owing its tropical flavor profile to its parentage. It is a cross of the White Wonder tomato, which lends pineapple sweet notes, and the Baby Blue tomato, which explains the deep indigo blue brushstrokes on the shoulders! This variety was bred by Roland Boulanger, Sart Eustache, Belgium. This

is a large beefsteak type. The big, beautiful fruit averages 10-20 ounces each, with the most captivating color and sheen, making it a must have for market gardeners, chefs and anyone who loves a gourmet flavored tomato with pizzazz.

Lucid Gem 4-5 oz. fruit, beefsteak style. This is a red/yellow interior sister of Blue Beauty. First they ripen yellow, than more of an orange when very ripe. Very attractive with the black anthocyanin splashes really contrasting with the lighter colored skin. Good to very good production. Mid-mid/late. Flavor is very good, much like a good bi-color. Sweet with fruity tones. Very meaty, very few Seeds – One of the best varieties I have seen for heat tolerance. Very good ability to stay ripe on the vine and stay edible. (sometimes getting better) Excellent post harvest storage ability.
