

GALVANIZED DISTRIBUTING GATES FOR PLASTIC PIPE

These gates are designed almost the same as our standard galvanized Distributing Gate with the exception that these gates are sized to fit either PIP or IPS pipe in the same way that other fittings are used, over the **outside** diameter of the pipe. This eliminates the need for a large amount of epoxy when installing.

Tube Length	Approx Weight	Size
2½"	2.5	6"
2½"	3.3	8"
2½"	4.4	10"
2½"	5.1	12"
2½"	7.4	15"
	11.1	18.3"/18.7"
	18	20"
