

## Swim Diaper Policy

In effect June 1, 2024

As of June 1<sup>st</sup> 2024, any child not fully potty trained or who has occasional accidents **HAS TO** double diaper. This means to wear a disposable swim diaper under a correct fitting reusable swim diaper or wear 2 reusable swim diapers.

A correct fitting reusable swim diaper is a tight-fitting diaper at the waist and legs made out of polyester or neoprene material. These diapers are met to have a tighter fit, around the waist and legs and hold in accidents. Poop happens! Warm water can stimulate digestion, so these diapers help keep the pool clean and healthy for all of us. **(It is recommended all child under the age of 4 wear a swim diaper.)** Be aware that swim diapers only contain solids...don't put it on too early or you may find a puddle under child.

Reusable swim diapers can be found on [Amazon](#).(best brand happy nappy).

**If you do not follow the diapering policy and your child has an accident there will be a \$50 cleaning fee applied to your account.**
