IV DRIPS

Time needed: approx. 90 min

You can expect faster recovery, improved endurance based on clinically reviewed dosages and synergistic ratios

The Revival Drip £300

Our Platinum edition IV treatment designed for a full body reset. Reduce inflammation, improve detoxification, promote clarity and significantly improve energy and mood. Clients typically feel calmer, clearer, more energised, and noticeably more resilient. A go-to drip for a full-body reset.

The Athlete Drip £200

This high-performance drip replenishes your body with amino acids, antioxidants, and metabolic cofactors to support muscle repair, ATP production, nervous system function, and hydration. Essential for athletes, hard trainers, and anyone pushing their physical limits.

The Oxiburn Elite Drip £225

Designed for maximal fat burning, energy and performance, built on the Inferno base and upgraded for superior metabolic drive, this drip targets mitochondrial efficiency, fatty-acid oxidation, and adrenal support.

The Limitless Drip £250

Tuned for a full body rejuvenation, ideal for individuals suffering from inflammation, fatigue and brain fog. Improves mental sharpness, calmness, reduces inflammation and promotes wellbeing. Targets mitochondrial function, antioxidant defence, nervous system balance, and recovery.

The Surge Drip £150

The Surge Drip is designed for a pure boost in energy levels. This Ideal for busy professionals, pre-event energy, long workdays, or a rapid reset when fatigue hits, this drip delivers a clean surge of cellular energy without overstimulation.

The Inferno Drip £175

Refined to significantly boost energy levels and support weight loss. Built for those who need more energy, lose weight/fat faster, and feel switched on. This drip targets mitochondrial energy production, fatty-acid mobilisation, nervous system drive, and fat burning.

VITAMIN B12 INJECTIONS

Time needed: approx. 15 min

Key in energy production, red blood cell formation, nerve health, and concentration

Vitamin B12 £40

Supports energy, recovery, and overall performance from the inside out. 5mg methylcobalamin B12, includes brief clinical screening to ensure suitability and safety before treatment

PHYSIOTHERAPY

High-performance, evidence based approach.

Our service is designed not only to treat injury, but to optimise movement, resilience, and long-term performance, whether you're a competitive athlete or simply want to function at your best.

Initial Assessment £80

Time needed: approx. 45 min

A comprehensive one-to-one assessment

List any musculoskeletal injury from sport, work, or everyday life. We'll take a full history, assess movement, strength and function, identify the root cause of your problem, and create a clear, personalised treatment and rehabilitation plan to get you back to full performance and pain-free movement as efficiently as possible.

Follow-up Appointment £50

Time needed: approx. 30 min

A focused treatment session

Follows your initial assessment or set plan. We'll review your progress, adapt your rehabilitation programme, provide hands-on treatment where needed, progress exercises, and address any ongoing issues to optimise recovery, performance, and injury prevention.
