## Ceramic Pro now available on MyCarfax Mobile!

Ceramic Pro is helping maximize the resale value of their customers' vehicles by reporting product installation details to Carfax. Vehicles treated with Ceramic Pro, the revolutionary liquid nanotechnology that protects paint and eliminates the need to wax your car, now are identified on Carfax Vehicle History Reports and the myCarfax.com mobile app.

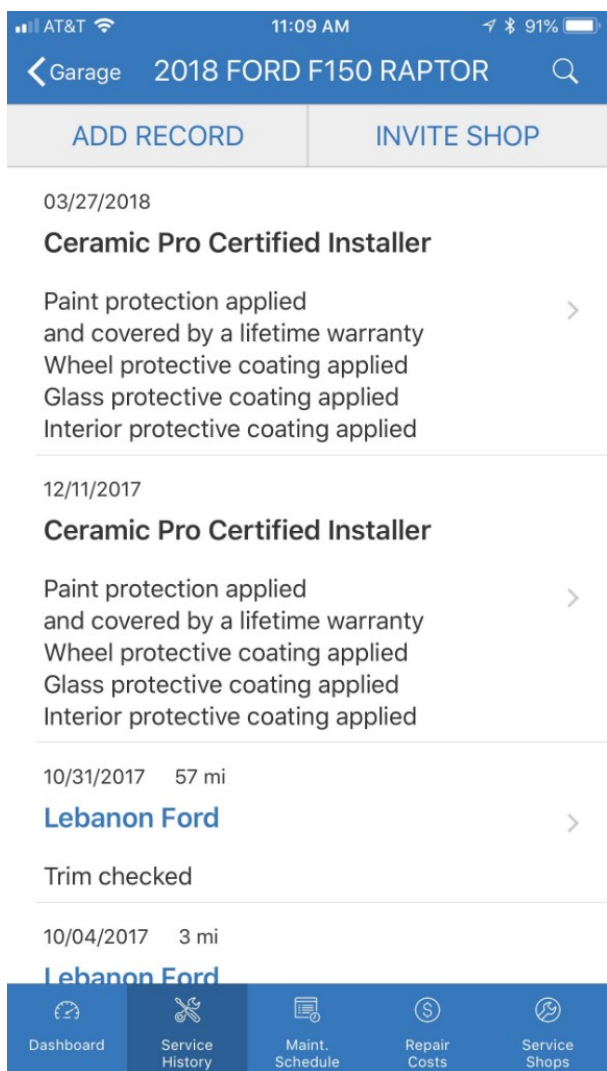

***“Taking steps to safeguard a vehicle’s fit and finish can have a positive impact on the overall maintenance,”*** said Vern Poyner, general manager at Carfax.

## Register all Warranties in Lead System, it syncs with the Carfax Database!

Our Lead Program App is the only way to register Warranties. Set up your account today if you have not already, and register all warranties here: [www.CeramicProPartners.com](http://www.CeramicProPartners.com)

- \* CarFax uses this system to receive nightly updates automatically. This is the only way to get the data to them in a way that works with their system.
- \* You can view all of your old warranties and even search the system for other registered warranties.
  - \* We have also added a way to track each annual service
  - \* Your client receives a copy of the warranty in their email
