

Overview

GUIDED ADAPTATION

We emphasize the importance of convergence of learning and work into one single idea or action

Who are we?

We are a Learning Firm established to focus on developing professionals to meet their long-term career goals by using design thinking and by playing the role of facilitator & motivator. We factor in designed growth, engineered exploration, guided adoption and accelerated evolution as part of our portfolio.

At Sai Acuity we tap individuals knowledge and skills through innovation labs, reverse mentoring and speaker series and have created guided learning journeys – MOOC-like experiences intended to quickly build new skills through a blend of reading, blogs, videos, discussion groups, assignments and projects as part of our customized learning solutions.

ENGINEERED EXPLORATION

We encourage employees to explore skills, roles, and knowledge beyond their current position

Our Key Services

- Corporate Trainings
- IT Finishing School Programs
- Staffing and Managed IT Services

Our Core Team

DESIGNED GROWTH

We foster enduring and continuous employee Learning and Development

GUIDED ADAPTATION

We emphasize the importance of convergence of learning and work into one single idea or action

ENGINEERED EXPLORATION

We encourage employees to explore skills, roles, and knowledge beyond their current position

Ravi is the Director for Sai Acuity, he has worked in Learning roles throughout his career, he was with **HSBC and Wells Fargo** for a career spanning 15 years. He is proficient in managing talent initiatives and ensuring capability building across levels, his strengths areas include identifying and executing assignments derived out of learning needs from business. In various learning roles he has created and driven a learning strategy which linked learning initiatives to overall Business and HR priorities for Technology and Operations lines of business.

Ravi brings in expertise in performance consulting, coaching & mentoring and has exposure in customizing learning interventions to specific needs.

Societal service activities are close to his heart and he looks to contribute in the vital area of youth development.

Kishore is the Chief Technology Officer - CTO for Sai Acuity, He is a well balanced IT professional with multiple skill sets. Well exposed to the delivery dimensions from both Service industry (vendors) as well as Global inhouse Centre (Captives). Had played multiple roles at multiple levels. In-depth experience on Project Management, Delivery (Dev/Testing) Management, Vendor Management and People Management with a **21 year stint at Infosys and Wells Fargo** - his last role was as a Vice President at Wells Fargo.

DESIGNED GROWTH

We foster enduring and continuous employee Learning and Development

GUIDED ADAPTATION

We emphasize the importance of convergence of learning and work into one single idea or action

ENGINEERED EXPLORATION

We encourage employees to explore skills, roles, and knowledge beyond their current position

IOT, Java, Python, PHP, Mongo DB,
Embedded & Socket programming
Consultants

Profile of Consultant who takes classes on AI, Python, Machine Learning & IOT

WORK EXPERIENCE

Python Programmer [Systems Engineer] Tata Consultancy Services

08/2014 – Present

Hyderabad

Supported electronics major Sony electronics and Automobiles major Fiat Chrysler Automobiles [FCA] in various projects.

Achievements/Tasks

- Independent researcher: 1 International paper publication. IoT professional [Both Hardware and Software]. Currently pursuing MS by Research in IoT from VIT, Vellore.
- Speaker at PyCon India 2014. ARM certified from CDAC.
- Experience in end to end Electronics and pure IT products. Interested in R & D.
- Can handle product development in Python/C and support services of Middleware.

PROFESSIONAL EDUCATION

B.Tech

Vignan Institute of Technology and Science

09/2010 – 04/2014

80.5 %

Courses

- Electronics and Communications Engineering

SKILLS

Python

IoT

C/Arduino

MQTT

php

Elasticsearch [ELK]

MySQL

Linux

Splunk

Embedded systems

Sockets

web scraping

selenium

HP Vugen

IBM Websphere

Raspberry Pi/Beagle board

PROJECTS WORKED ON

Internal security tool using NetFlow and Packetbeats on ELK stack (02/2018 – 04/2018)

- Used Elasticsearch and Logstash to collect NetFlow and Packetbeats data. Developed Queries and Aggregations in elasticsearch to collect required information.
- Built a python cross parser for request and response with ELK and Google Security, Virus Total API's.
- Capable of handling large data. Scroll and Aggregation API's optimized. Uses less memory footprint.

Connected Vehicle Program [FCA]. (07/2015 – Present)

- Used MQTT to publish and subscribe messages to vehicles via IBM MQ broker(PyMQI). [Can use Paho and Mosquitto as well.]
- Developed multiple IoT modules on Python. Handled both hardware [OBD ii] and software parts.

Profile of Consultant who takes classes on Core Java

- **Java/J2EE Senior Analyst Apps Programmer with around 12 years of experience in professional** software requirements gathering, analysis, design, development, testing and implementations in the areas of Enterprise and 3-Tier applications using Java, J2EE technologies.
- Good knowledge of all the phases of software development life cycle (Requirements gathering, analysis, design, development, testing and implementation)
- Good experience with XML, WSDL and Web Services
- Sound knowledge of Object Oriented design, MVC Architecture, Design Patterns.
- Extensive development experience in Java, JSPs, Servlets, JMS, XML, JDBC, AJAX.
- Good knowledge on open source frameworks like Struts, Hibernate and Spring.
- Expertise in deploying Web and Business component applications on JBoss, Weblogic and Sun ONE App servers.
- Good knowledge of SQL/PL SQL programming and involved in the database design.
- Design experience using Rational Rose, Jude (Class diagrams, Sequence diagrams etc)
- Motivated to take independent responsibility, as well as the ability to contribute and be a productive team member
- Good communication and interpersonal skills

Profile of Consultant who takes classes on Advanced Java

Technical Profile:

- Having strong experience in building **Networking Products** using **JAVA/J2EE** technologies.
- Extensive **Software Development Life Cycle** experience including Requirement Analysis, Preparations of Technical Specifications Document, Design, Coding, Application Implementation, Unit testing, System Testing, Business and Functional Documentation, Production Support, Functional and Regression Testing.
- Strong Experience of working in **Agile** Development Environment and **SCRUM** methodologies.
- Experienced in Object Oriented Analysis and Design using **UML** and developing **Use cases, High Level and Low-Level Sequence Diagrams and Class Diagrams**.
- Profound Experience in using **Struts** and **Spring frameworks**.
- Hands on Experience in **Socket Programming** and Knowledge on **Networking Protocols** like **SNMP, WMI, SSH, LDAP** and **WBEM**.
- Strong Knowledge of **RDBMS** concepts and experienced in using Relational databases like **MySQL, Oracle**.
- Knowledge on **NoSQL** servers MongoDB and Apache Cassandra.
- Expertise in **search engines** and related products like **Elastic Search** and **Apache SOLR** and **Logstash**
- Extensively used **SQL** in writing **Queries, Stored Procedures, Functions and Triggers**.
- Expertise in **XML** and related parsers like **DOM, SAX, JIBX** and **JAXB**.
- Expertise in developing Presentation Layer Components using **Swings, JSP, HTML** and **JavaScript** Technologies like **AJAX, JQUERY, Angular JS, Typescript**.
- Extensive usage of **JUNIT** for Unit testing and verifying Complete Code Coverage using **EMMA** for delivering High Quality Code. Used **UISPEC4J** for swings unit testing. **SELENIUM-RC, WEBDRIVER** for web-based UI testing.
- Used **ANT** script and **INNOSETUP** for Build Process.

DESIGNED GROWTH

ENGINEERED EXPLORATION

We encourage employees to explore skills, roles, and knowledge beyond their current position

ISO & Lean Six Sigma Trainings Our Consultants

Profile of Senior Consultant who takes classes on ISO & Lean Six Sigma Trainings

- ❑ Over 15 years experience in consultancy/ management services at domestic and international corporations.
- ❑ He is a Certified Quality Manager, Certified Supply Chain Management Specialist, Certified Lean –Six Sigma Master Black Belt and Qualified Lead Auditor –ISO 9001
- ❑ The work contributed in major field of strategic leadership with scorecard, Process Excellence , Lean Six Sigma project execution with kaizen impacts , and quality management systems at 360 degree.
- ❑ An expert in conducting gap analysis in systems through audits to identify the quantum of work, corrective actions need requirement.
- ❑ Professional qualification include BE in Mechanical Engineering, MTech in Industrial Engineering and Management, Post Graduate Diploma in Operations Management.

Profile of Senior Consultant who takes classes on ISO & Lean Six Sigma Trainings

- Has 35 years of rich experience in production, material management, repair & maintenance, IT systems development, delivery and services, and quality systems management.
- A proven leader, he is specialized in high growth start ups for bringing process orientation, and turnaround situations in cause related or
service oriented organizations.
- An engineering graduate and a post graduate diploma holder in computer science and Radar systems.
- He is certified in BaaN ERP and is certified Lead Auditor – ISO 9001
